Dear community of San Jose, and city govt.,

With a few adjustments, it is hopeful and important, good community advocacy practices & human rights thinking, can mostly remain the same, pre & post, Covid-19.

I feel, from these good efforts, we can more easily prepare, and more honestly question, possible major changes, in the coming months.

And what may be, a short term, 2-4 year period, to respect & alleviate, an unprecedented level, of human suffering.

I hope, well established, human rights practices, can be considered, as a base, we can all rely on, in the coming months.

sincerely,

**Subject:** blair beekman. sj. city council. April 28, 2020. Consent Calendar. Item 2.1.

Dear community of San Jose, and city government,

Item 2.1 today, is about the approval, of many previous, committee & council agendas, from the past year,

And with what I think, are items, of city govt. tech., & its Complete Street Design studies, with the VTA.

I would like to relate this, to the S.J. Sunshine Ordinance, and its study sessions, of 2006-7.

A person can find, the S.J. Sunshine Ordinance of 2006-7, with all of its rough draft notes & study sessions, on the city govt. public website.

I feel, we are now better prepared, with more thought out guidelines, and legal precedents, about openness & accountability, with city govt./ community practices, since the time of 9.11.01.

With these good efforts, I am still hopeful, what can develop, if we work as, an entire community, towards more responsible, peaceful, transparent, minimal use practices, for the future of technology, data, & surveillance.

I feel, it is these ideas, that can also define the terms, proactive & sensitivity, in this time of emergency, and for our collective good future, as well.

Thank you, for community words, with items 2.8 and 2.9.

Good thoughts, for overall current issues of child care, and with, the possible growing issues, of coronavirus, & young people, as well.

sincerely,  
blair beekman

Dear community of San Jose, and city govt.,

My recent thoughts, on a staggered, tiered system, for economic & rental issues, in the following months, in San Jose, is based on the ideas -

To try stay together, as a whole community, at this time.

To keep specialized ideas & practices, to a minimum.

And for, the current national economy, to respect, an inflationary freeze period, at this time.

I feel, this can allow, local governments, to facilitate & accomplish more, for the people, of local communities.

And, in simpler, easier terms.

sincerely,

Dear community of san jose and city govt.,

If applicable, I hope this item, will not be relying on, regional Measure B, transportation and environmental funding.

And there can be, other, positive funding options, with these current, airport planning issues.

I also hope, new federal guidelines, in how to isolate, airport pollution, will want to include, the City of Santa Clara, in more regular, transportation pollution metrics.

Can there also be, a few more, in-depth, public statements - with current city govt. thinking, of long-term, high-rise development ideas, around the airport.

And perhaps, how it can connect, to this current agenda item.

I hope, the simple, mild-mannered, practical thinking and planning, of the airport commission, is still doing well.

And they can still be considered, as a good resource, for all of the community, with this agenda item.

And in this worried time.

sincerely,

Dear community of San Jose, and city govt.,

I think, tenants, owners, and government, are all looking at the ideas, of what can be, full debt relief, for the duration, of the Covid-19 pandemic.

The question, is how to begin, to more openly talk about this. And that, all sides, can safely agree.

sincerely,
