Rules and Open Government Committee Agendas

Dear community of San Jose, and city govt,

We are all hoping, new Covid-19 cases, will begin to lessen, in Santa Clara Co.

However, small pockets and outbreaks, may be reappearing, in towns, cities, & counties, across the country, through June, and through the winter months, in the southern hemisphere.

And then return to, the northern hemisphere, this fall and winter.

As death counts, are sure to remain high, through June, in this country.

We may be a long way, from turning the corner, with the Covid-19/SARS-2 virus.

I hope we all can be working, towards a process, that responsible & safe vaccines, can be made available, soon.

Sincerely,  
Blair Beekman

**2. blair beekman. sj city council. May 5, 2020. Item 3.4.**

Rules and Open Government Committee Agendas

Dear community of San Jose, and city govt,

I feel it can be, common, everyday thought, that this current worldwide pandemic, is possibly man-made.

In also noting, continual government experimentation, on lower income persons, of society.

I feel there has to be, an overall, new sensitivity, in how to talk about placing, more 4G & 5G tech, into local, low income communities, when its health effects, are not better understood, yet.

I hope, the SJ Digital Inclusion community, can begin to realize, they can already get much, of what they're asking for.

From this, I hope it can finally be time to consider - the good reasoning & logic, of minimal use technology practices, that often can do, as much work, as the over-saturation, of broadband & technology, in San Jose, and eastside neighborhoods, at this time.

I feel that by actually going slow; with more respectful conversation, of corporate donorship; to have a continuing, data gathering approach, by schools & the library dept.; and with more sensitive descriptions, to the public; this can simply develop, a better language, for community relationships.

That can then better address, the ideas of digital inclusion, the digital divide, and the current pandemic.

As I have been trying to state, at public comment, for almost the past year now - There are many, important, human rights, and worker rights, projects & concepts, developing in San Jose, and throughout the country, for the past several years.

Based on, simple, humanistic ideas, with more reasoned thought & care towards, open, good practices, and positive, sustainability ideas.

I hope the already shared ideas, of this letter, can be an example, that can help find, a new depth, to the term, proactive, at this time.

And to help ourselves focus, from the chaos & disruption, of the past few months.

And to help, in the efforts, for San Jose, to return to - more steady, familiar ideas. And a more progressive, long term course.

As most people, were already trying to work towards, before this pandemic.

Sincerely,  
Blair Beekman

Thu 5/7/2020 11:59 AM

Rules and Open Government Committee Agendas

Dear community of San Jose, and city govt,

I was surprised to see, notices of removal, for all the trees, at least 20, along the Post Street alleyway, between 1st and market.

There are bright green notices, these trees have disease and structural issues.

I hope this is not, city govt. attempts, at some sort of, ' beautification through the sterilization process '.

This is a beautiful alleyway, with the trees, as they are

The city govt. of San Jose, has a sad, recent history, of cutting down trees, in the downtown area, and in San Jose, for the past several years, now.

Including the removal, of the Robert Kennedy, memorial oak tree, in St James Park.

And several, large, tall, red pine trees, in the 2nd Street parking lot, between San Fernando and Santa Clara streets.

There may be reasons, that I don't fully understand. But I very much fear, your city is using poor judgment.

Can Raul Peralez of District 3, city councilpersons, and city govt.,

Please re-evaluate your thinking, in cutting down, all the trees, in the Post St. alleyway, between 1st st. and Market, in downtown.

And what feels, as poor judgement, city govt. may have, towards a natural beauty of trees.

Can there be ways, how to possibly better judge, the disease conditions ?

And to mitigate & minimize, any long-term disease issues, within the trees.

And that, if you will be cutting down these trees, along with the entire ambiance, of the Post Street alley,

Can you at least plan for, some sort of, public community service, like a death in the family.

sincerely,  
blair beekman
