Dear community of San Jose, and city government,

With all the digital inclusion issues, and the massive push of new broadband, 5G, and Vision Zero neighborhood safety technology, in the past few months,

Thank you for this item, and considering, more underground wiring options.

I hope you are learning, to take the extra step, and learning to making the efforts, as a city government, to help facilitate, how everyday community, can ask more, of the health risks, and safety concerns, when Broadband, and 5G, is wanting to be placed, in local neighborhoods.

sincerely,
