Subject: 8/4 public comment for Agenda item #4 Public Safety

[External Email]

Dear City Council:

The Cambrian neighborhood in the vicinity of Leigh High School and Los Gatos Almaden Road has recently been the site of more than three very large (from 30 to 100 vehicles) sideshows. The center of this intersection is blackened from tire marks. The southwest corner of the intersection is Los Gatos jurisdiction while the rest is San Jose. These sideshows are often lasting 25 minutes or so.

We believe that this location is chosen in part because of the jurisdictional conflict and these people know that San Jose will not respond. There is a gas station on one corner (in Los Gatos), the tarmac of which also been used for skidding. The other two north corners have houses and the street is lined with houses to the north.

While Councilperson Foley has been notified, and her aide, Kyle Laverini, informs me that the Southern district commander has been notified, no police have shown up when contacted. This location is less than one quarter mile from where a house was run into by drag racers a few years ago at Anne Way, and a woman seriously injured in her own home. Do we need to wait until more people are crushed while they sit in terror in their own living rooms as reckless drivers take over our neighborhood? Or a gas station goes up in flames?

We residents of District 9 ask for more police protection where it is needed and when it is needed. We support public safety and ask that we be given an equal amount of attention in this regard.

Best regards,

Alayne Yellum

Subject: Keep Reid-Hillview Airport Open

[External Email]

To:
Cindy Chavez and Sonya Herrera,

Reid-Hillview Airport is a valuable asset in San Jose!
Planes have flown daily out of this airport for over 50 years!
Reid-Hillview Airport is federally funded and it was there before houses and Eastridge Mall were built. We have more than enough retail stores and restaurants around this area. In fact, many retail stores and restaurants have closed.
Capitol Expy area is currently unbearable and simply cannot afford increased traffic with more housing.

If there is an emergency that results in the shutdown of the main airport, we will have Reid-Hillview Airport available!

The Reid-Hillview Airport was the origin for an emergency supply airlift to the Watsonville Municipal Airport following the 1989 Loma Prieta earthquake.

The Watsonville Airport received approximately 100 tons of supplies via the airlift during the week after the quake. THANK GOD! REID-HILLVIEW AIRPORT WAS AVAILABLE TO HELP DELIVER SUPPLIES TO VICTIMS OF THE EARTHQUAKE!

As you are aware, the next earthquake will be coming. What's going to happen without an emergency location such as Reid-Hillview Airport to transport and/or receive supplies?

The protections are currently in place with Reid-Hillview Airport. Removing it would be a complete disaster and an untold human tragedy in an emergency!

. Yolanda and George Rossy

Dear community of San Jose, and city govt.

In all the current questions, we are currently going through, of de-militarization, defunding, reform, and restructuring,

A depth may include, how to consider, a better balance, of a local community democracy, that tries to work towards & listen to, the voice of each individual,

This compared with, local democracies, that try to develop it's ideas, more as, a body of voices, of a republic.

I hope my ideas, word's, & examples, from public meetings, the week of August 4, can be of help, to understand, what can be, our simple day to day efforts and work, towards better community practices.

And how, positive good ideas, often connect to, the ideas of openness, equality, equity, and positive sustainability, that is the direction, San Jose is uniquely headed towards, at this time.

For veterans of city govt., and community, this is a time to review, our current human relationships, ideals, values.

And to continue to look for, good, day to day ideas and practices.

This may be, how to move into our future, in good terms.

sincerely,
blair beekman

Dear community of San Jose, and city govt,

To continue with important ideas, concepts & practices, I was writing and speaking about, before summer break.

With local technology and broadband issues, at this time, a local govt & community together, can make demands, and work around, federal mandates.

How can people, of sj govt., help facilitate for everyday community, how to better ask, what technology & surveillance, is being placed in their neighborhood.

And how can, San Jose city govt., be sure, that telecomm companies are sending notifications, in enough time, for people to have, a 20-day appeal process.

It seems time to ask, how individual cities, can better work towards, their own ideas of improvements, in the ideas, of the open, public process.

I hope, city govt., can continue, to want to always show, their motions, on-screen, before final votes are cast, by city council.

From this, sj city govt. needs to learn, how to end, it's laziness & bad practices, of replacing zoom app codes, with only an hour before, a RoAG meeting.

San Jose city govt., starting to offer, both Spanish & Vietnamese translation, at the same time, of Zoom app public meetings - has an important good idea, for the future, of many San Jose city govt. sponsored, public meetings & functions.

I think we all feel ridiculous, of how the word - Vietnamese - cannot be used, to describe where to go, for translation help, on the zoom app, during public meetings.

It is working out these issues, at this time, that is how to develop, our better reasoned, future generations.

To conclude, it can be an important time, everyday community, can work together, to address the current future, of community energy.

And how, to distance ourselves from PG&E, to better develop, local democratic practices, with local ideas of renewable energy, and positive sustainability.

This is continuing the work, of what can be, good day to day ideas, for a city government and a community.

These are the efforts, that grow over time. And why a community, is positive, open, and good.

sincerely,
blair beekman

[External Email]

Dear community of San Jose, and city govt,

Please understand, Ash Kalras work, towards tenant rights and tenant forgiveness, has been months in development.

And as mortgage forgiveness, and other owner relief plans, can cover most all needs and worries.

These times may be grim. But peoples ideas around rent help, at this time, is not.

Owners and tenants, please stop fighting like dogs and cats, over rental help, meant to fully help relief & cover, all sides.

Work from this compassion & good reasoning. And understand, incredibly helpful ideas, at this time.

This is how to begin to re-open our future, and ask for long term social planning, based on genuine ideas, of positive sustainability.

Please consider, the many possibilities, of how tech accountability, guidelines, and legal precedents, and open democratic practices, are specifically meant to address, ideas of peace,

And how to end, continual war, and shock doctrine practices.

And how it can help everyday people, address these questions, for their community future.

sincerely,
blair beekman
