Comment on agenda item 4.1 Council meeting 10/27/20

Putting the responsibility on the public to document fireworks should only be one small tool. Enforcement must be taken seriously by the police, and others.

The council must direct the police to actively seek out sellers of fireworks both on line, and from small corner stores as well as other venues.

The council must insist that the police plan on one big bust at a known hot spot. There is no way the public is going to accept the police continuing to refuse to do the work they're hired to do. They must actively make a bust, and publicize it widely so people know the police take the issue seriously. Right now everyone knows it's a huge joke to say fireworks are illegal.

I encourage revisiting the idea of using drones on high fireworks use days (the 4th, New years, and Chinese New Years) to document and help locate fireworks being set off.

We are not going to accept the continued excuses we hear every single year.

I'm incredibly disappointed in the city.

Suzanne Morrone

District 3 resident
