To be more involved with the local community as it relates to representation of San Jose and the South Bay Area in general, locally and nationally. This is also a great opportunity for me as a young adult to gain experience in local government, along side my further educational prospects. I have university experience in using maps and mapping software, allowing me to see various proposals and arguments for a particular district set-up. I would strive to be as impartial as possible, relying on data and social science when making proposals, listening to proposals, and making arguments for my case. I want to have the greatest representation of San Jose residents as possible to ensure their voices can be heard and their issues brought to the spotlight.

Please state any other information which you feel would be useful in reviewing your application

I am a young adult, age 26 at time of application, who wants to build a greater future here in San Jose. I have the privilege and fortune to have had access to extraordinary education here in San Jose and throughout the United States. I bring perspectives from other places that might offer new insight into how San Jose can thrive with our highly diverse and metropolitan population.

Supplemental Questions

If applicable, have you ever attended a meeting of the Commission(s) to which you are applying?

☐ Yes ☒ No

Would you be available to attend meetings at the scheduled time?

☒ Yes ☐ No

Please describe your experience in serving on a Commission or Board.

N/A

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

Working at the Superior Court of California at San Mateo County, I interacted with many people from around the Bay Area, California, the nation at large, and those from other countries. I learned valuable lessons in communicating with people, finding and understanding their needs and requests, and then finding the best way to fulfill those requests to their satisfaction. My university experience also gives me insight into reading data points about populations and translating those points into presentable maps for educational purposes.

What is your understanding of the purpose of the Commission?

To create a data zone for local, state, and national census. Taking stock of how many people live in the set area, who they are, how they identify themselves and how they make their living for the purpose of representation in a republican fashion.

Please list three issues facing the City that you feel the Commission should address.

Public Transportation, Police interactions with minority communities, rising living costs.

I would like to say . . .

I would be very grateful for the opportunity to serve my community in such a way that would affect representation in the democratic process, gain experience in how local government functions, and how government interacts with its community.

Please describe your experience in serving on a Commission or Board.

As NC Commissioner, served as chair and I served on several NC Ad-Hoc committees including: SJPD Unmanned Aerial System (UAS), Ad-Hoc Committee Process, and NC Caucus Process. Currently, I am serving as San Jose NC Independent Citizens Oversight Standing Committee Chair. I actively participated in the NC work plan development each year.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

As a project manager, I dealt with resource, budget, and schedule problems. Dealing with these problems required me to be able to communicate and work with others including employees, management, subcontractors, and customers. As a president of a 350-unit homeowner's association, responsible for an annual operating budget of over one million dollars, I deal with resource, budget, and schedule problems as well community issues. Dealing with these problems requires me to be able to communicate and work with a volunteer Board of Directors, an association manager, subcontractors, and homeowners.

What is your understanding of the purpose of the Commission?

The SJ Redistricting Advisory Commission will study and develop recommendations for changing, or altering the boundaries of SJ Districts affected by the 2020 U.S Census population data. I would like to be a member of the redistricting commission because this commission will be deciding on how the district boundary lines are drawn and if any district boundaries will change. Every ten years after the census districts are subject to redistricting based on the data provided by the census results. Santa Clara County had 82% of its county respond to the census. The redistricting commission would have until Dec of 2021 to submit it's report. I have been on two commissions previously (Neighborhoods and Arts) so I have commission experience and was in a vice chair or chair position on Arts Commission for 4 of my 6 years. San Jose has just over a million people so each of district has to have just over 100,000 residents in a district. Since re-districting only happens every 10 years I would find it interesting to see how our district populations have changed in the last ten years.

Please describe your experience in serving on a Commission or Board.

I have served on a commission since 2013 when I started on Neighborhoods and then switched to Arts Commission in 2014. I have thoroughly enjoyed serving on a commission and have learned a lot about city processes. I love being engaged in my community and serving on a commission has been a great way for me to volunteer my time while becoming more connected to my city. Since I will be terming out from the Arts Commission I think the timing is perfect to switch to this commission.

Considering your experience and activities in business, labor, professional, social, or other organizations, indicate the experience, training, knowledge and/or skills which qualify you for appointment to the selected commission(s).

I feel that my previous experience on two commissions gives me commission experience. I also consider myself a community leader. I am very active in my district and have been involved in many different organizations. I have taken on many leadership roles in the various organizations that I have dedicated my time to. I like to consider myself a bridge builder, because I like to work together with others and bring people together when there is divisiveness. I feel that we must always find a common ground when coming to a collective decision. As a manager of 200 volunteers I work and interact with many different people and feel that I work well with others.

What is your understanding of the purpose of the Commission?

A commission is an advisory committee to the city council. The commission comes up with recommendations to give council. This commission will review the census data. The council will then take action on the commission's recommendations to adjust district lines. This commission is unique in that it is being given a specific task and will conclude once the results have been presented. The San José Redistricting Commission allows residents to incorporate public input to propose City Council maps that would last for the next decade. This process will determine how well San José's communities are represented in local government.

Please list three issues facing the City that you feel the Commission should address.

The commission needs to work together. Currently our city and nation are in a state of divisiveness. We live in assigned districts but ultimately we are all residents of a city with a population of over one million people. Each commissioner represents one of the 10 districts and collectively will agree on any adjustments to city district lines. The commission needs to make sure they do everything possible to fully engage the communities. These changes would affect everyone in the city therefore everyone's voices should have a chance to be heard. Lastly, the commission needs to ensure that the changes they are recommending for district line adjustments are fair and equitable. The goal is to be objective when making any recommendation to the council and again think of the greater good and what is best for our city going forward until the next census in ten years.

I would like to say . . .

I have enjoyed serving on a commission the last six years and look forward to the opportunity to serve on this commission.
