[External Email]

Dear community of San Jose, and city govt.,

With item 2.12, in a simple reminder, of my first years, with San Jose public comment - Dumpster days, can be a way, to consider & invite, all people, to clean up, their local neighborhood.

And those with homes, and those without homes.

It can be a good way, to develop communication and trust.

And can perhaps, better address, the current issues, of large amounts of trash - without being punitive.

311, can better develop ideas, of problem solving - as an open communication, chat line - between residents of local neighborhoods.

And those, with homes, and those without. To speak about, trash issues, and other, neighborhood goings on.

sincerely,
blair beekman
