A. The Agreement is consistent with the General Plan, in that preservation of specific structures is a part of the Envision San José 2040 General Plan Historic Preservation Goal 13, and Historic Preservation Policy LU-13.6 and Policy LU-13.13.

- 1) The Agreement advances Historic Preservation Goal 13 by preserving the sense of place and historic integrity of the Craftsman style house, and promoting awareness of its historic architecture and associations with San José residents from different walks of life who lived in an maintained the house for over 100 years, and created businesses, art and music that is part of San José's community identity.
- 2) The Agreement implements Historic Preservation Policy LU-13.6 because it requires the property owner to commit to a ten-year work plan to invest in the maintenance and rehabilitation the house and to conduct the work in conformance with the requirements of the Historic Preservation Ordinance, the Secretary of the Interior's Standards for the Treatment of Historic Properties, and "Your Old House Guide for Preserving San José Homes." These requirements would address Historic Preservation Policy LU-13.6.

B. The Agreement would provide greater protection for the Historical Landmark property than is otherwise provided by the provisions of San José Municipal Code Chapter 13.48 in that the owner, in partnership with the City, must use a

portion of the property tax relief to rehabilitate and maintain the property in accordance with the preservation plan, Exhibit “C” of the Agreement; and

C. The Agreement complies with the requirements of Section 13.48.520 of Chapter 13.48 of Title 13 of the San José Municipal Code, which requires contracts to incorporate the Municipal Code’s required provisions for Historical Property Contracts, including the following:

- 1) A description of the Landmark Property subject to the Agreement;
- 2) A provision that the term of the Agreement is a minimum period of ten years;
- 3) Specific conditions requiring preservation of the Landmark;

HISTORIC PRESERVATION RULES AND REGULATIONS

FILE NO. MA21-001

APN: 467-41-054

OWNER shall, where necessary, restore and rehabilitate the Historical Landmark and shall do so only in full accordance and compliance with the rules and regulations of the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring and Reconstructing Historic Buildings, as the same may be amended from time to time.

A summary of the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring and Reconstructing Historic Buildings (the “Standards”) is provided below for convenient reference. OWNER shall comply with the Standards in effect when OWNER commences any rehabilitation or restoration work on the Historical Landmark.

The Standards (Department of the Interior Regulations, 36 CFR 67) pertain to historic buildings of all materials, construction, types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building’s site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

- 1) A property shall be used for its historic purposes or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.
- 2) The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- 3) Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural element from other buildings, shall not be undertaken.
- 4) Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
- 5) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.

- 6) Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical or pictorial evidence.
- 7) Chemical or physical treatments, such as sandblasting, that cause damage to historic materials, shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.
- 8) Significant archaeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.
- 9) New additions, exterior alterations or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
- 10) New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.
