San José City Roadmap | FY 2021-2022

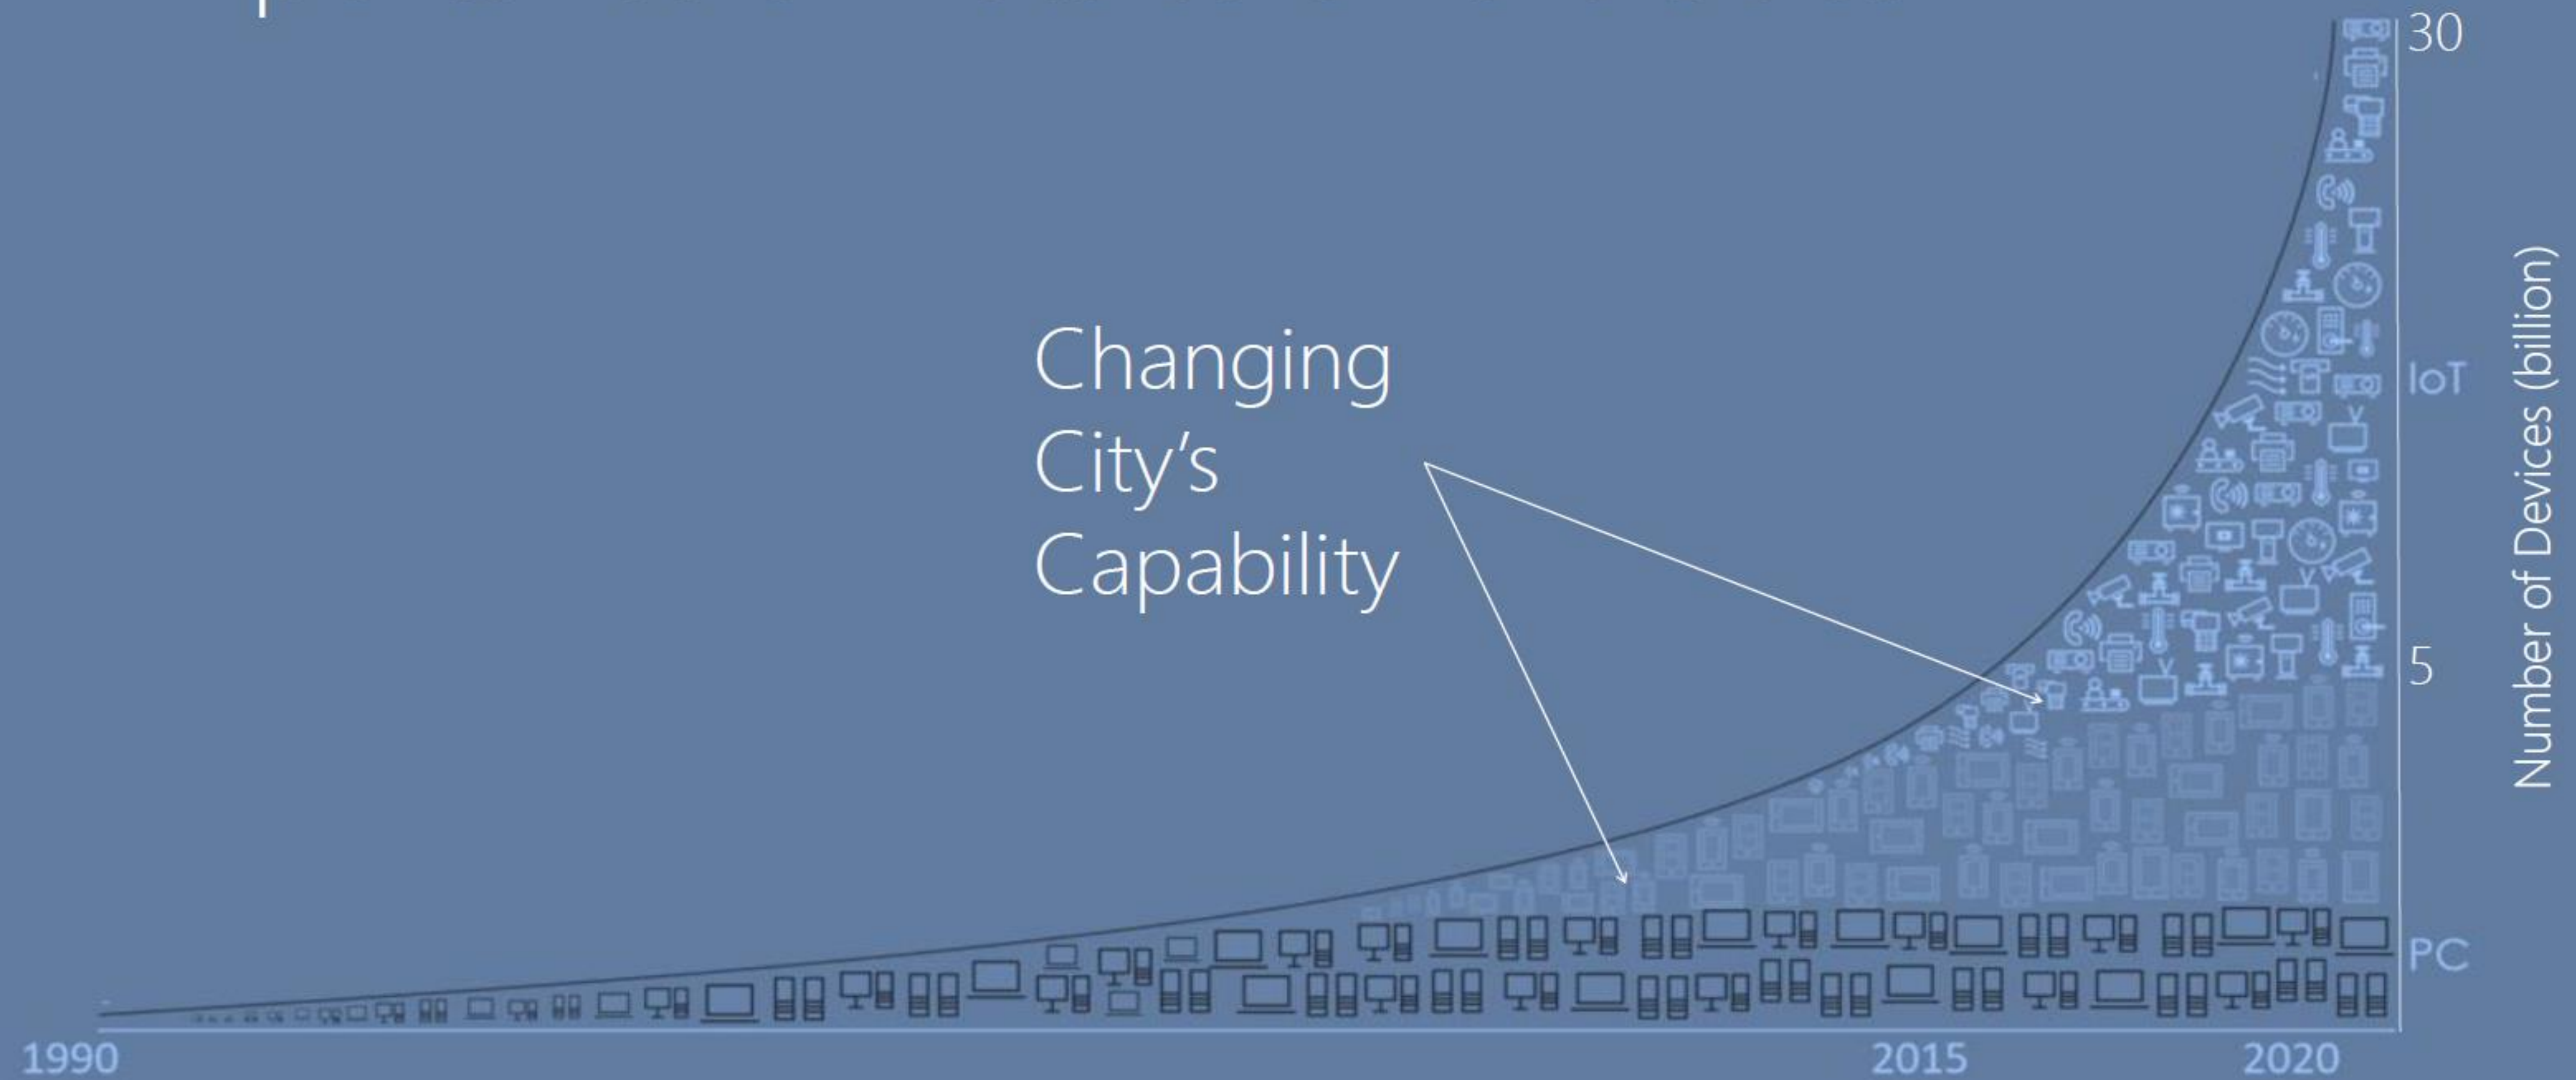

Legend:

COVID-19 Response

Enterprise Initiatives

Enterprise Priority	Project						Strategy		Policy		
COVID-19 Pandemic: Community + Economic Recovery	Housing Stabilization	Re-Employment + Workforce Development	Small Business Recovery	Food + Necessities Distribution	Digital Equity	Child Care			Build Back Better + Recovery Taskforce		
Emergency Management + Preparedness	Vaccination Taskforce								Soft-Story Building Earthquake Retrofit Policy		
Creating Housing + Preventing Homelessness	Emergency Housing Construction + Operation								Sheltering + Enhanced Encampment Services	North San José Strategy	Encampment Management + Safe Relocation Policy
Safe, Vibrant, + Inclusive Neighborhoods + Public Life	Police Reforms Work Plan						San José 311 + Service Delivery	Encampment Waste Pick-Up BeautifySJ	Vision Zero Traffic Safety	Equity Strategy Development	Neighborhood Services Access Strategy
Building the San José of Tomorrow with a Downtown for Everyone	Align Zoning with General Plan						Development Services Transformation	Google Development	Major Real Estate Development Projects	BART + High-Speed Rail Strategy	
Smart, Sustainable, + Reliable City: 21 st Century Infrastructure	Pavement, Fire, EOC, Transit Capital Improvements						Regional Wastewater Facility Capital Improvements	Electrical Service for Major Development	Climate Smart American Cities Climate Challenge	Lowering PG&E Above Market Costs for Clean Energy	
Enterprise Priority Foundational	Project						Strategy		Policy		
Strategic Fiscal Positioning + Resource Deployment	Federal + State Recovery Advocacy	Secure City Cybersecurity	Procurement Improvement	Pension Obligation Bond Analysis			Budgeting for Equity	City Roadmap Budgeting, Accountability, + Performance			
Powered by People	Continuity of City Services	Safe Workplace	Employee Health + Wellness	Drive to Digital			Effective Teams	City Workforce Diversity + Skill Building			

Importance of Data to Smart Cities

Where we find ourselves

Observations:

- Fractured as spatial data was
- Many vectors of input
- Many storage locations
- Few obvious system connections
- Most approaches have been singular & not sustainable

City Departments:

- Interest to be data driven
- Gaps in knowhow
- Cavern in capacity

Center of Excellence for Data: Strategies

- Adjust Organizational Approach
- Add a Data Equity Lead resource
- Spatial Data Success to influence tactics
- Do the Data Chores
- Teach & Train the organization
- Don't miss chances for Quick Victories

DATA → METRICS → PERFORMANCE

Democratize the Value of Data

for the elected officials, city staff,
and people of San José

Foster Communities of Practice

to grow the breadth, depth, and
expertise of our data practices

Enable Data-Driven Actions and Decisions

that improve our effectiveness,
efficiency, and equity

Build Usable Data Assets

Provide Operative Analytic Tools

Enable Cross-Functional Insight

Lower the Barrier

Raise the Ceiling

Grow the Footprint

Aid Data-Driven Analysis

Spur Organizational Change

DATA → METRICS → PERFORMANCE

Look Back

San Jose Open Data Approach

Technology

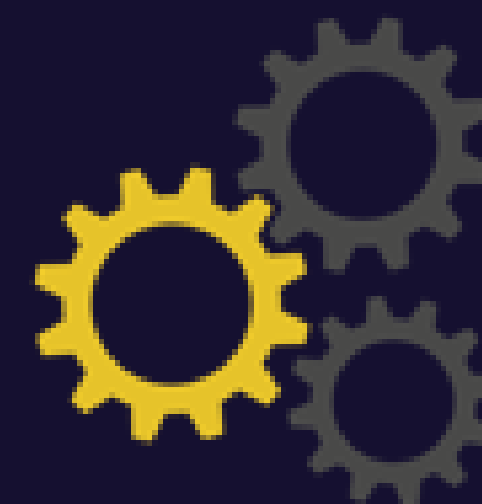

- Open Data Architecture (ODCA)
- City Open Data Environment (CODE)
- Support Internet of Things (IoT) scale and Artificial Intelligence

People

- Champions
- Skills/Strengths
 - Analytics
 - AI/ML/DL
- Practice

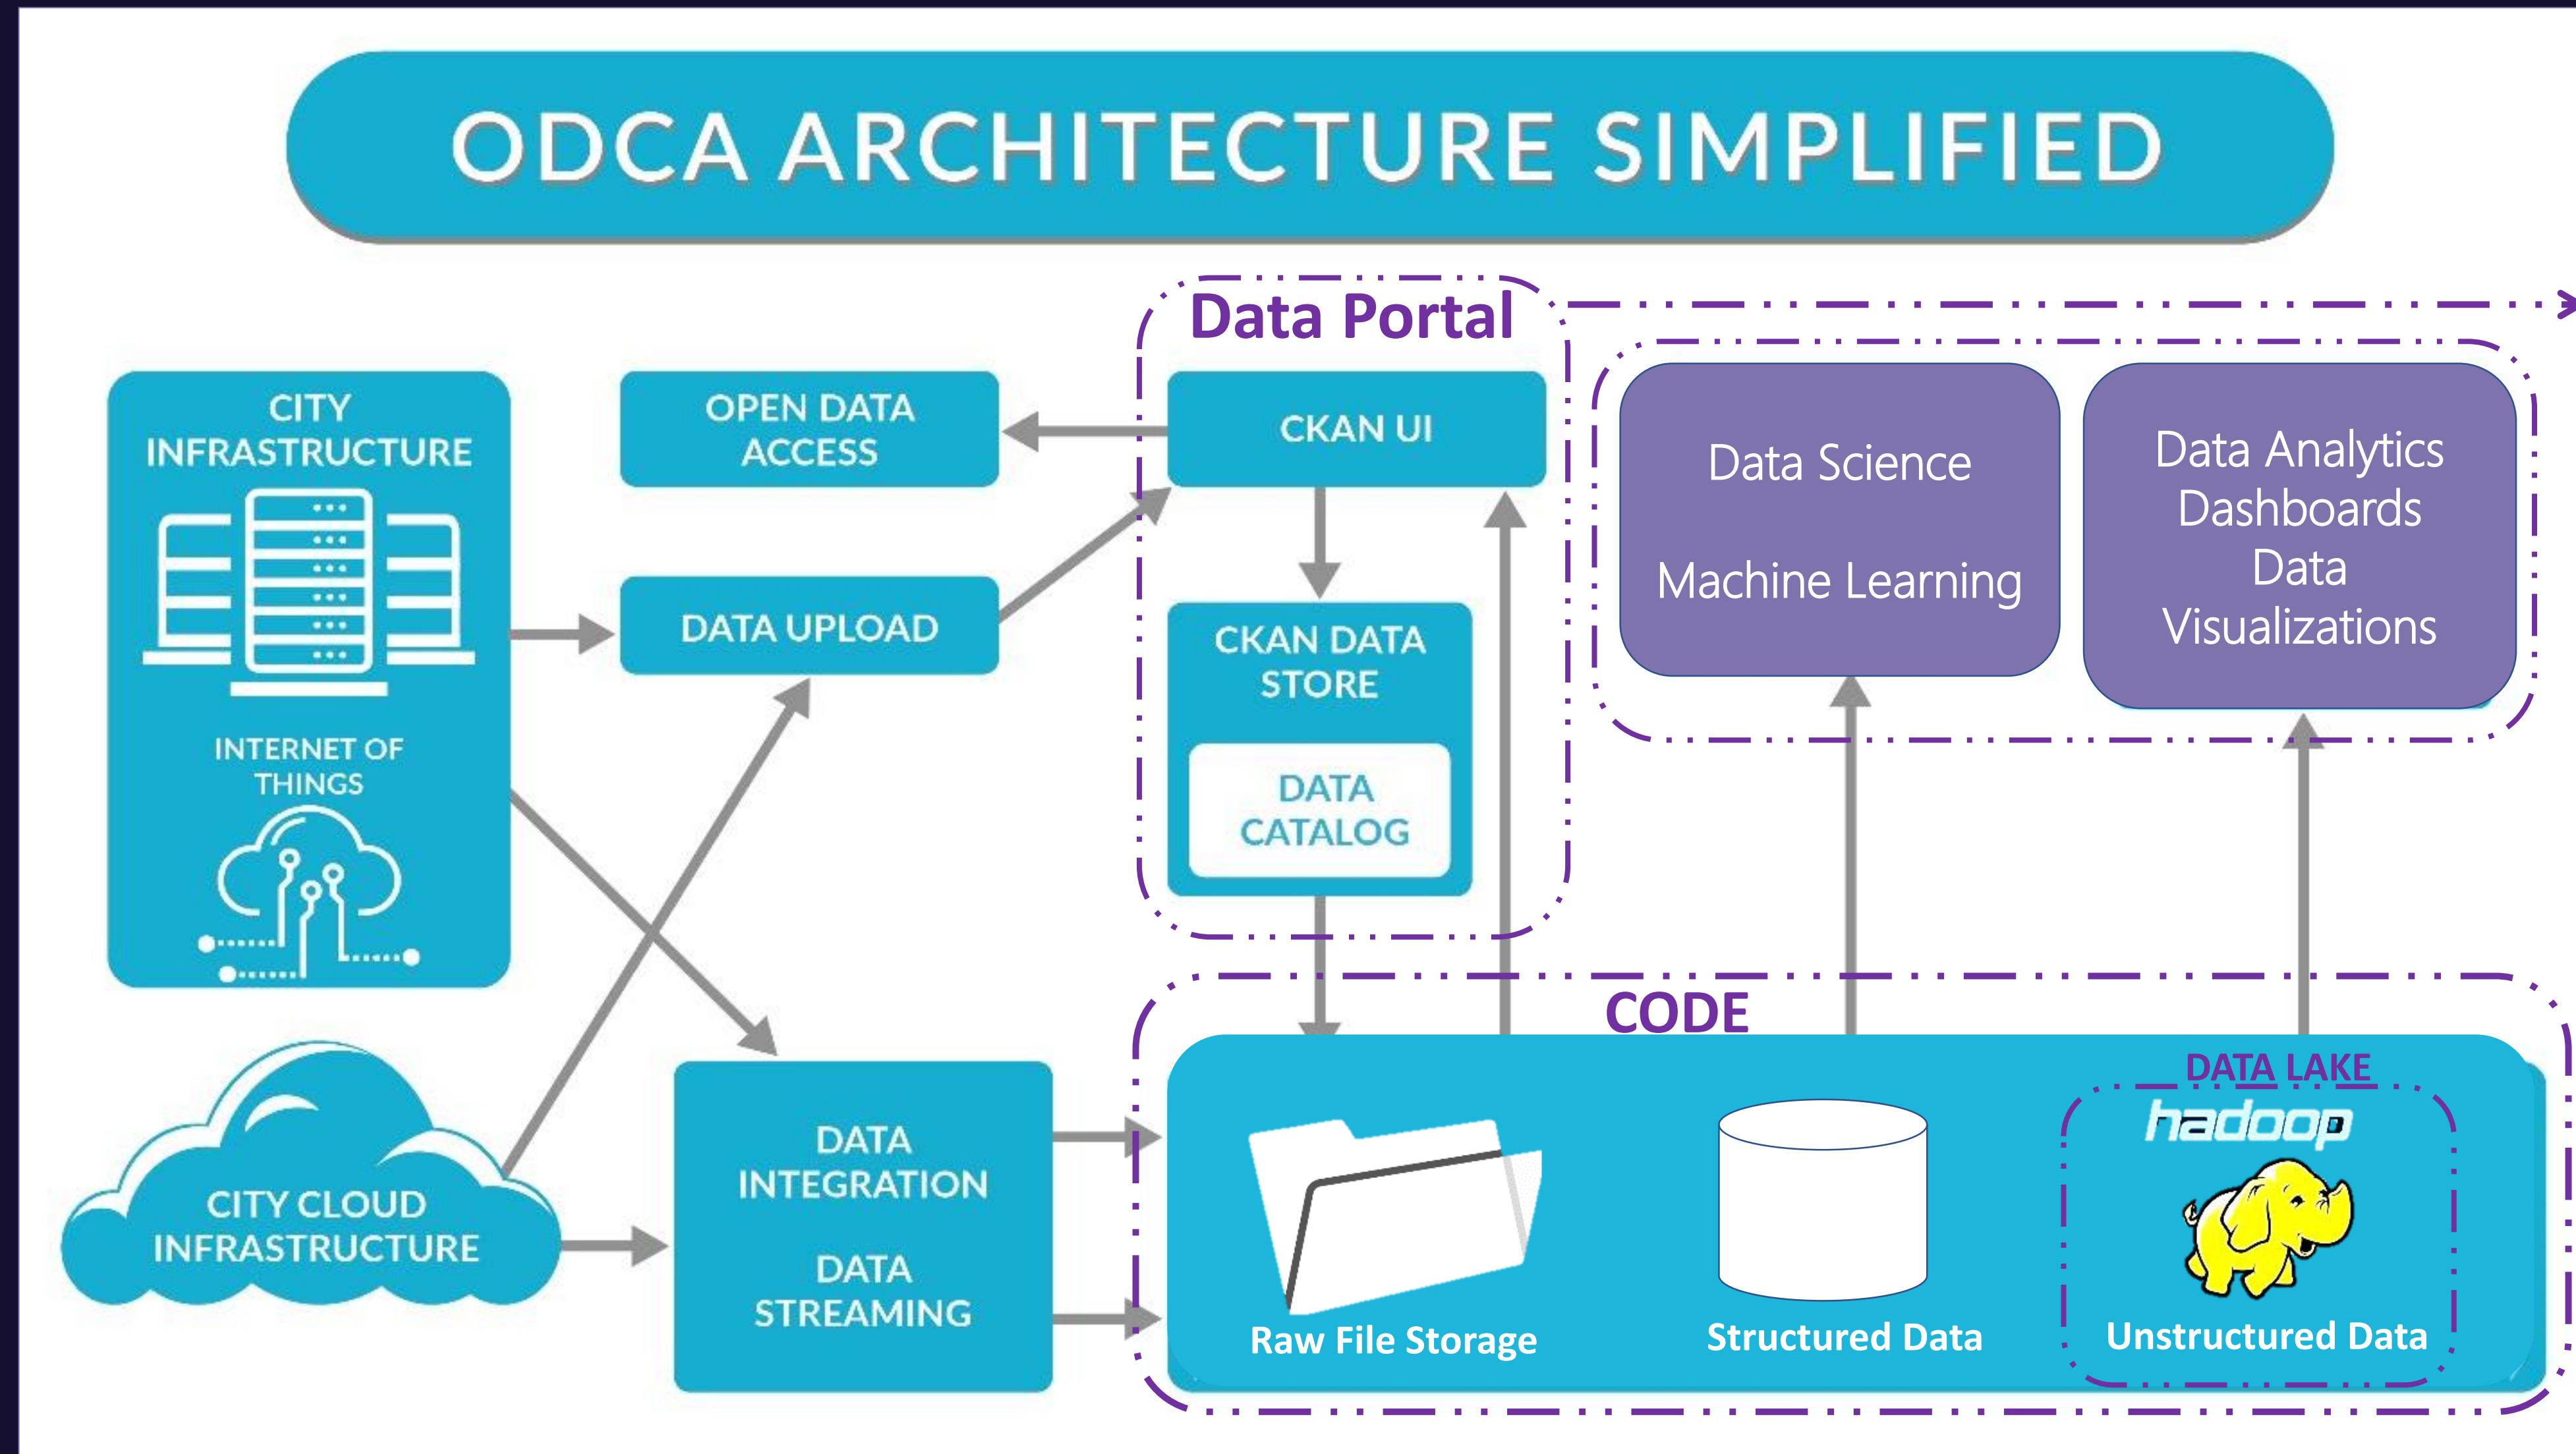

Processes

- Data governance
- Data journalism
- Community interaction
- Decision making

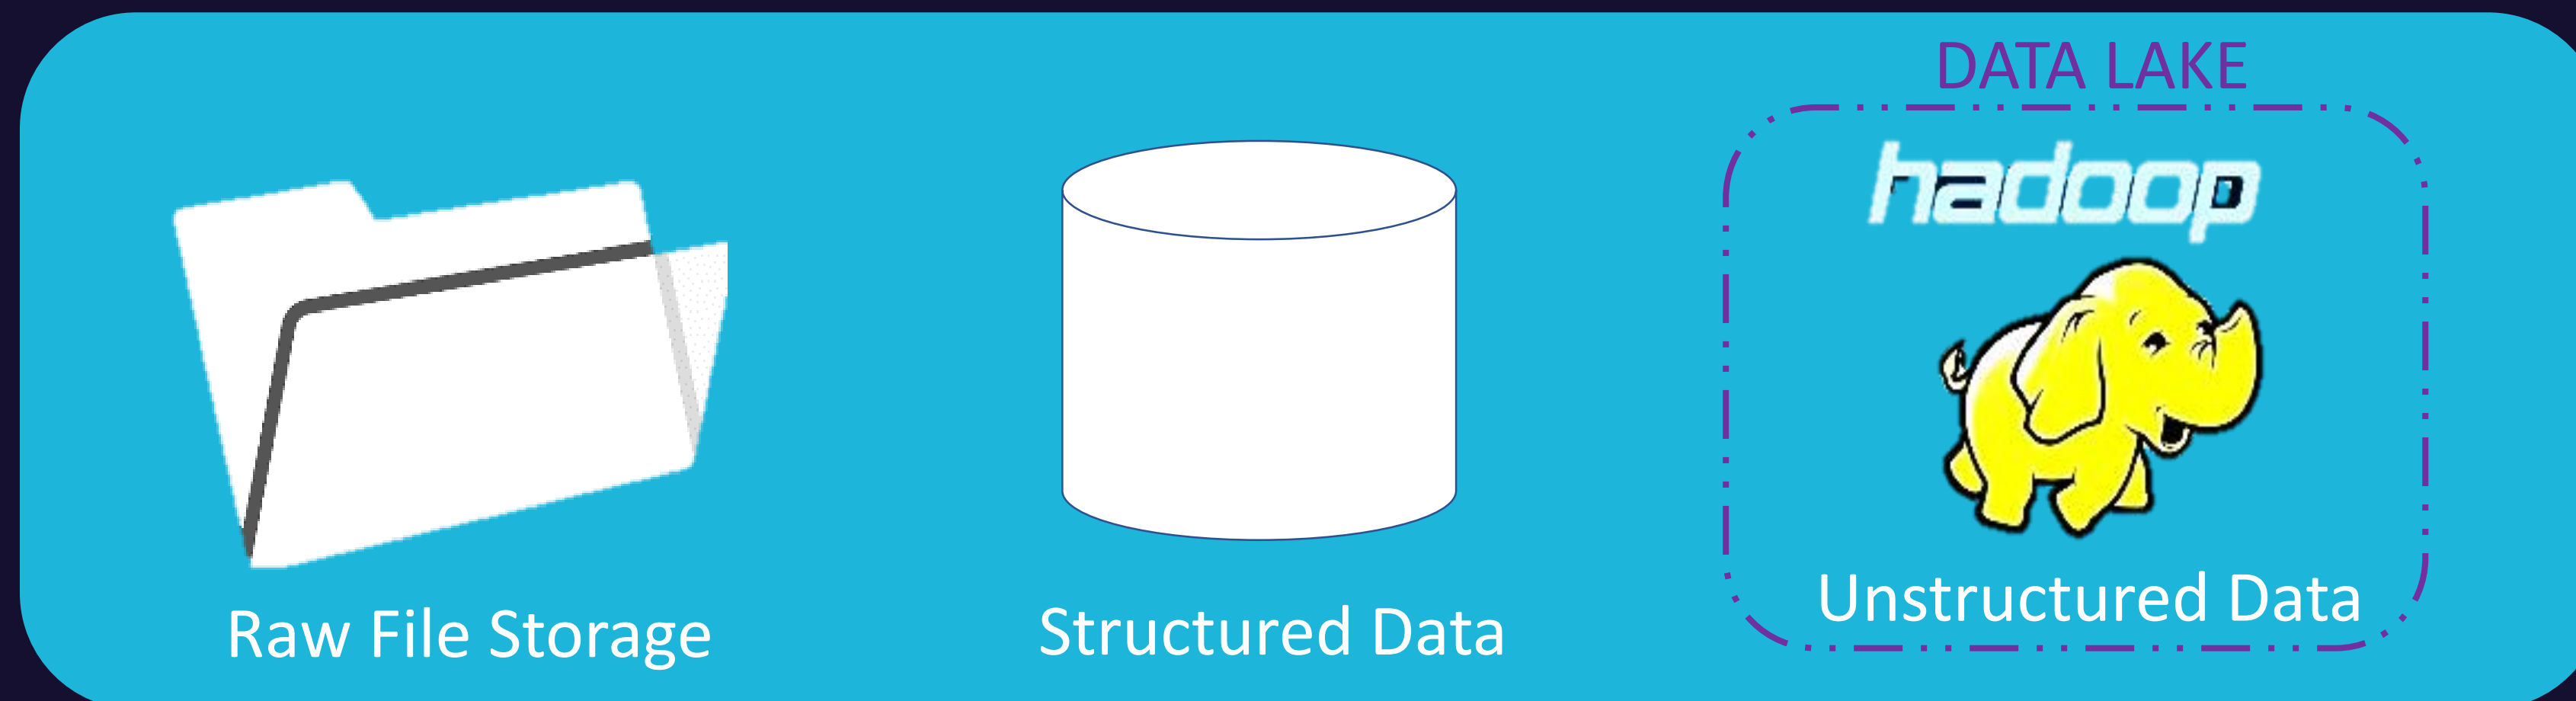

Setting Foundations...

Foundational Work– Open Data Community Architecture

Foundational Work – City Open Data Environment

- 0.5 PB of dedicated data storage
- Data Segregation
 - *Raw File Storage – 5%*
 - *Structured Data – 0.1%*
 - *Unstructured Data – under development*

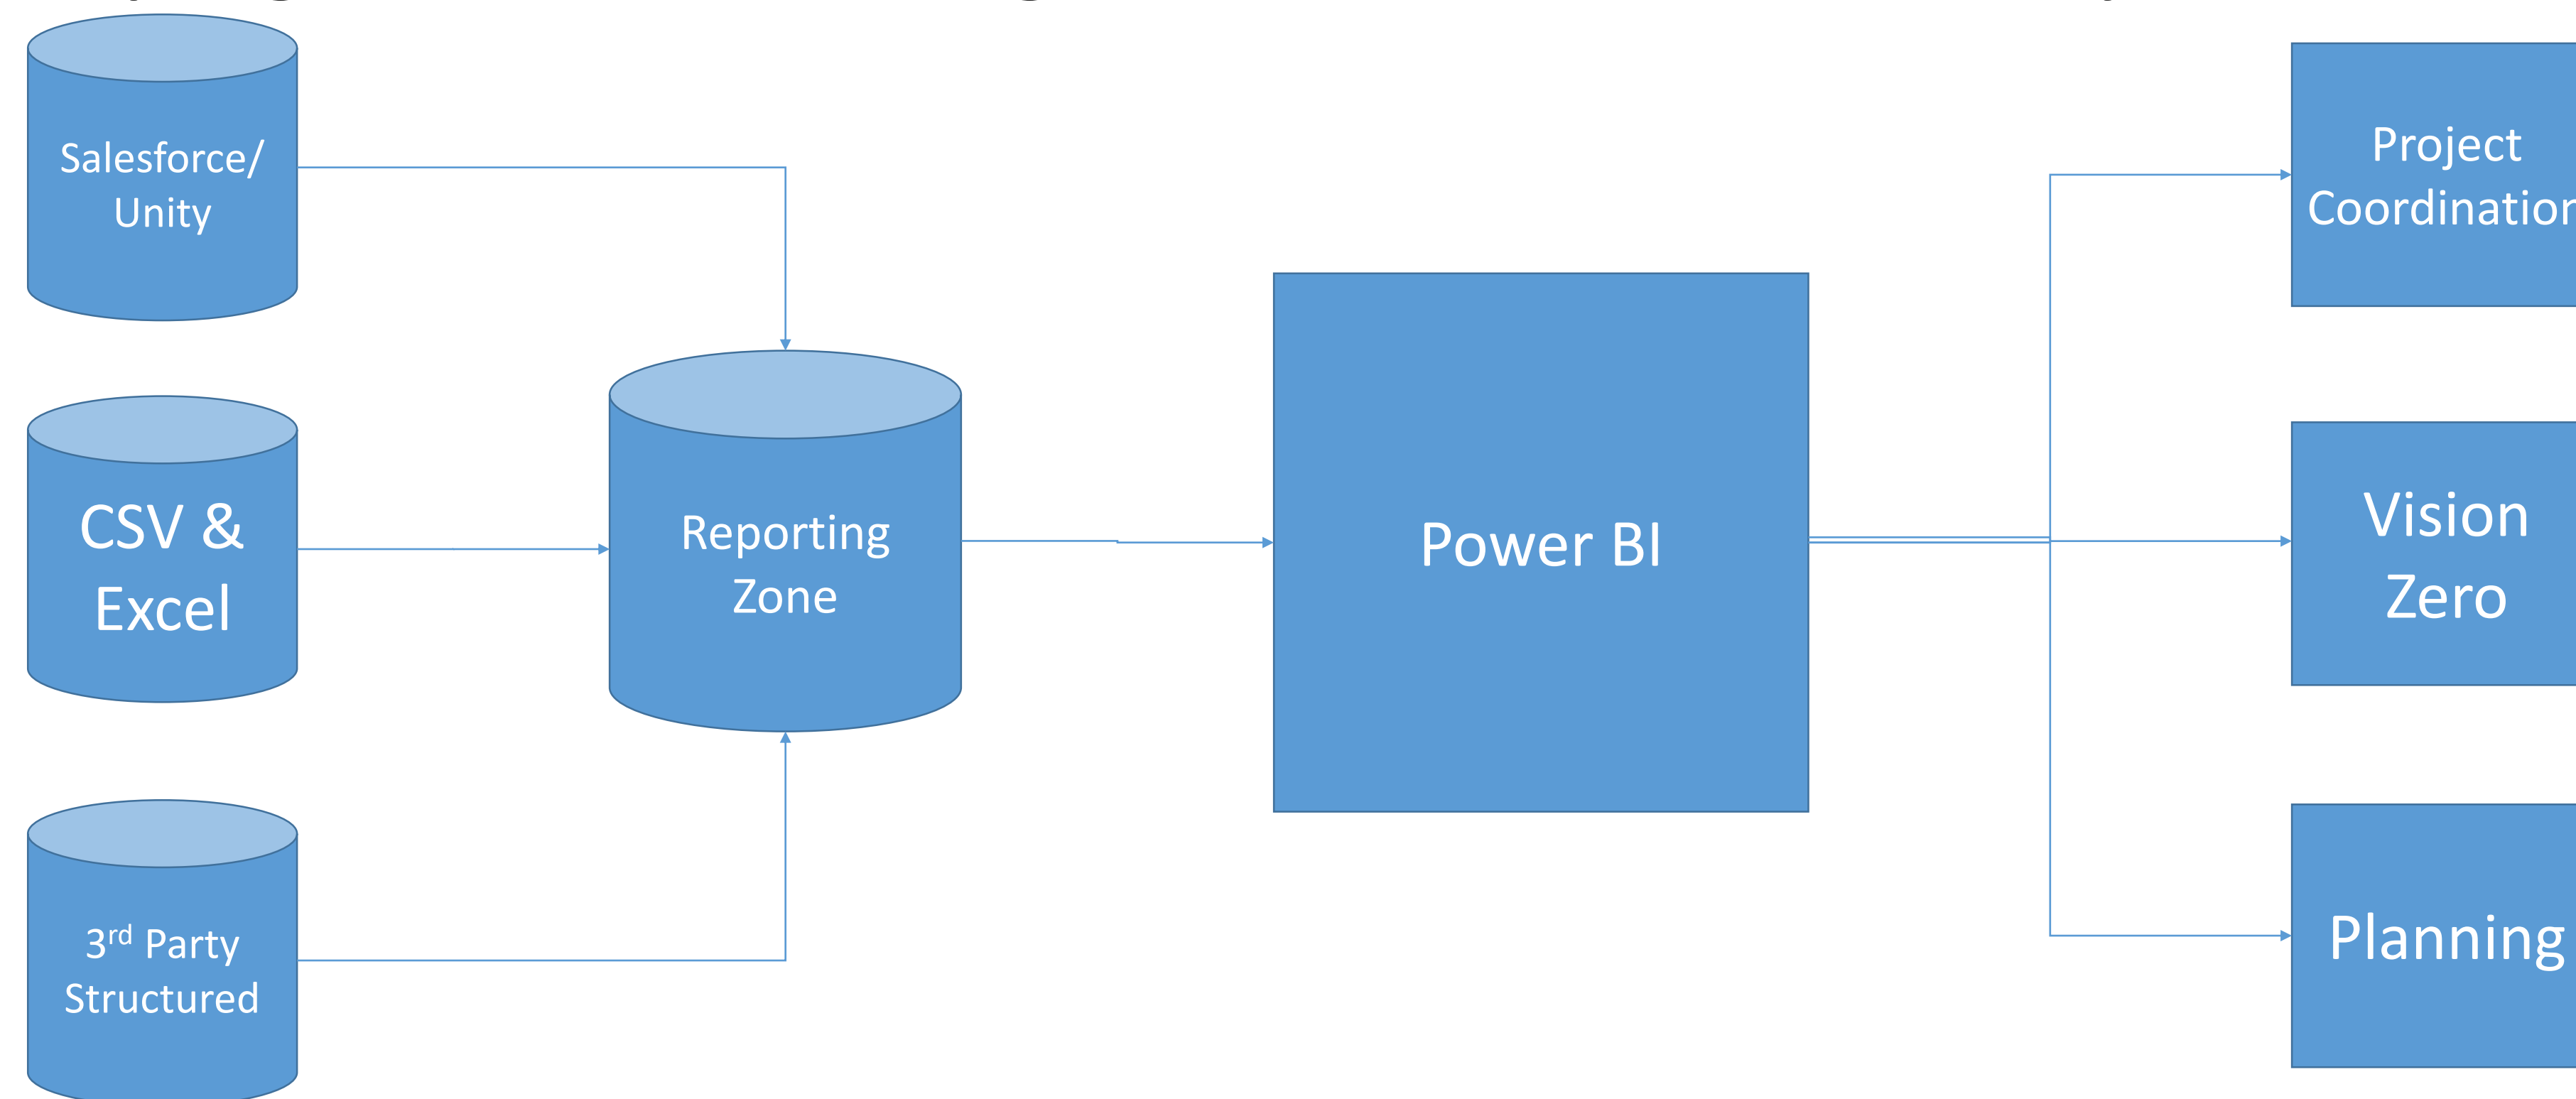

Deep digging with DOT...

DOT Data Logistical Strategy

- Combine DOT's Data strategic vision across Divisions
 - Cross collaborate and align across Divisions & Departments
 - Increase efficiency and reduce costs
- Data Sources
 - Salesforce/Unity
 - DOT Reporting Zone -> ITD Data Lake (Data Repository)
 - structured & unstructured data
 - System/application data
 - 3rd party data
- Ensure we adhere to all Security and Digital Privacy Standards
- Partners
 - UrbanLogiq (UL) & Arup

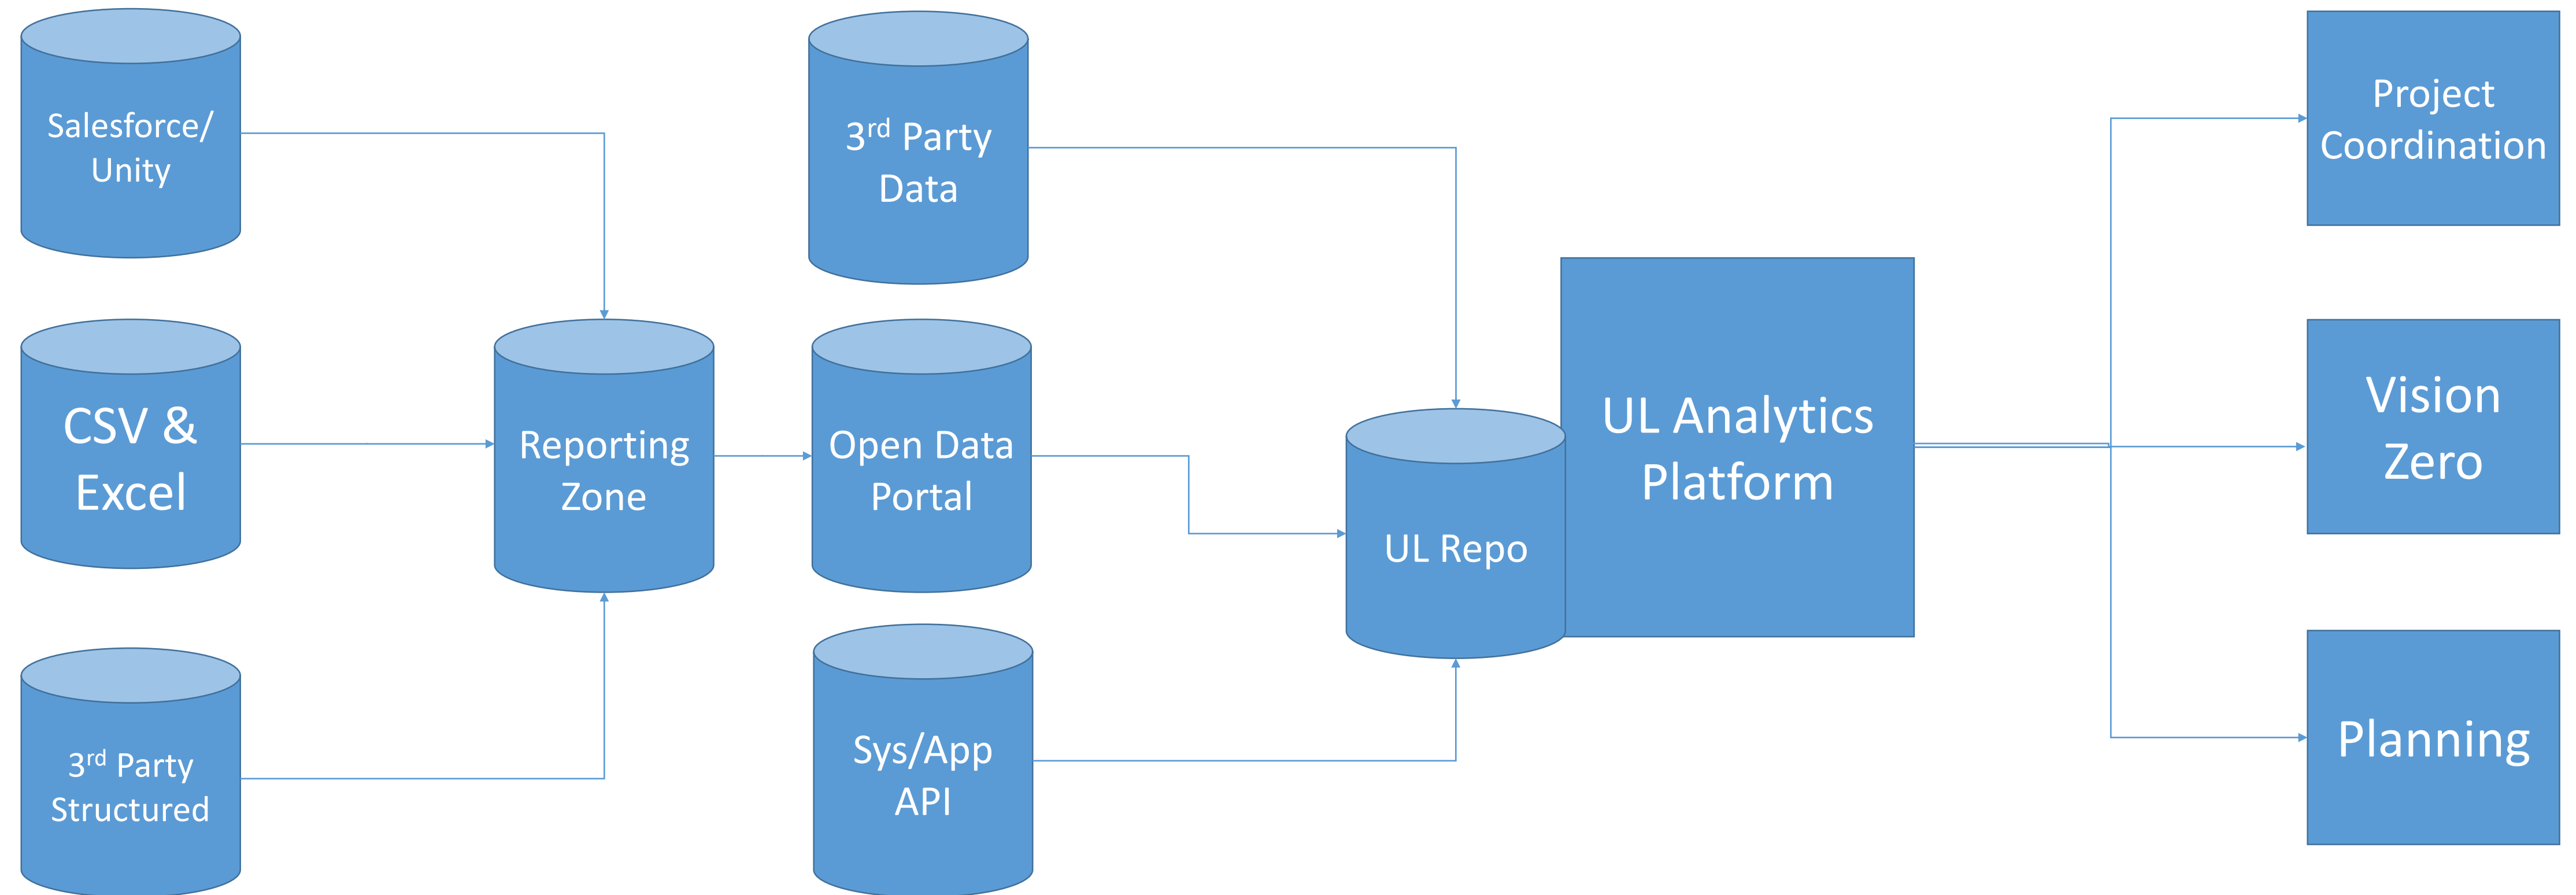

General Analytics

Developing Use Cases for a general (lower level) analytics

Advanced Analytics - UrbanLogiq (UL)

UL is a full stack data analytics cloud platform, working on Vision Zero and Planning analytics

UrbanLogiq

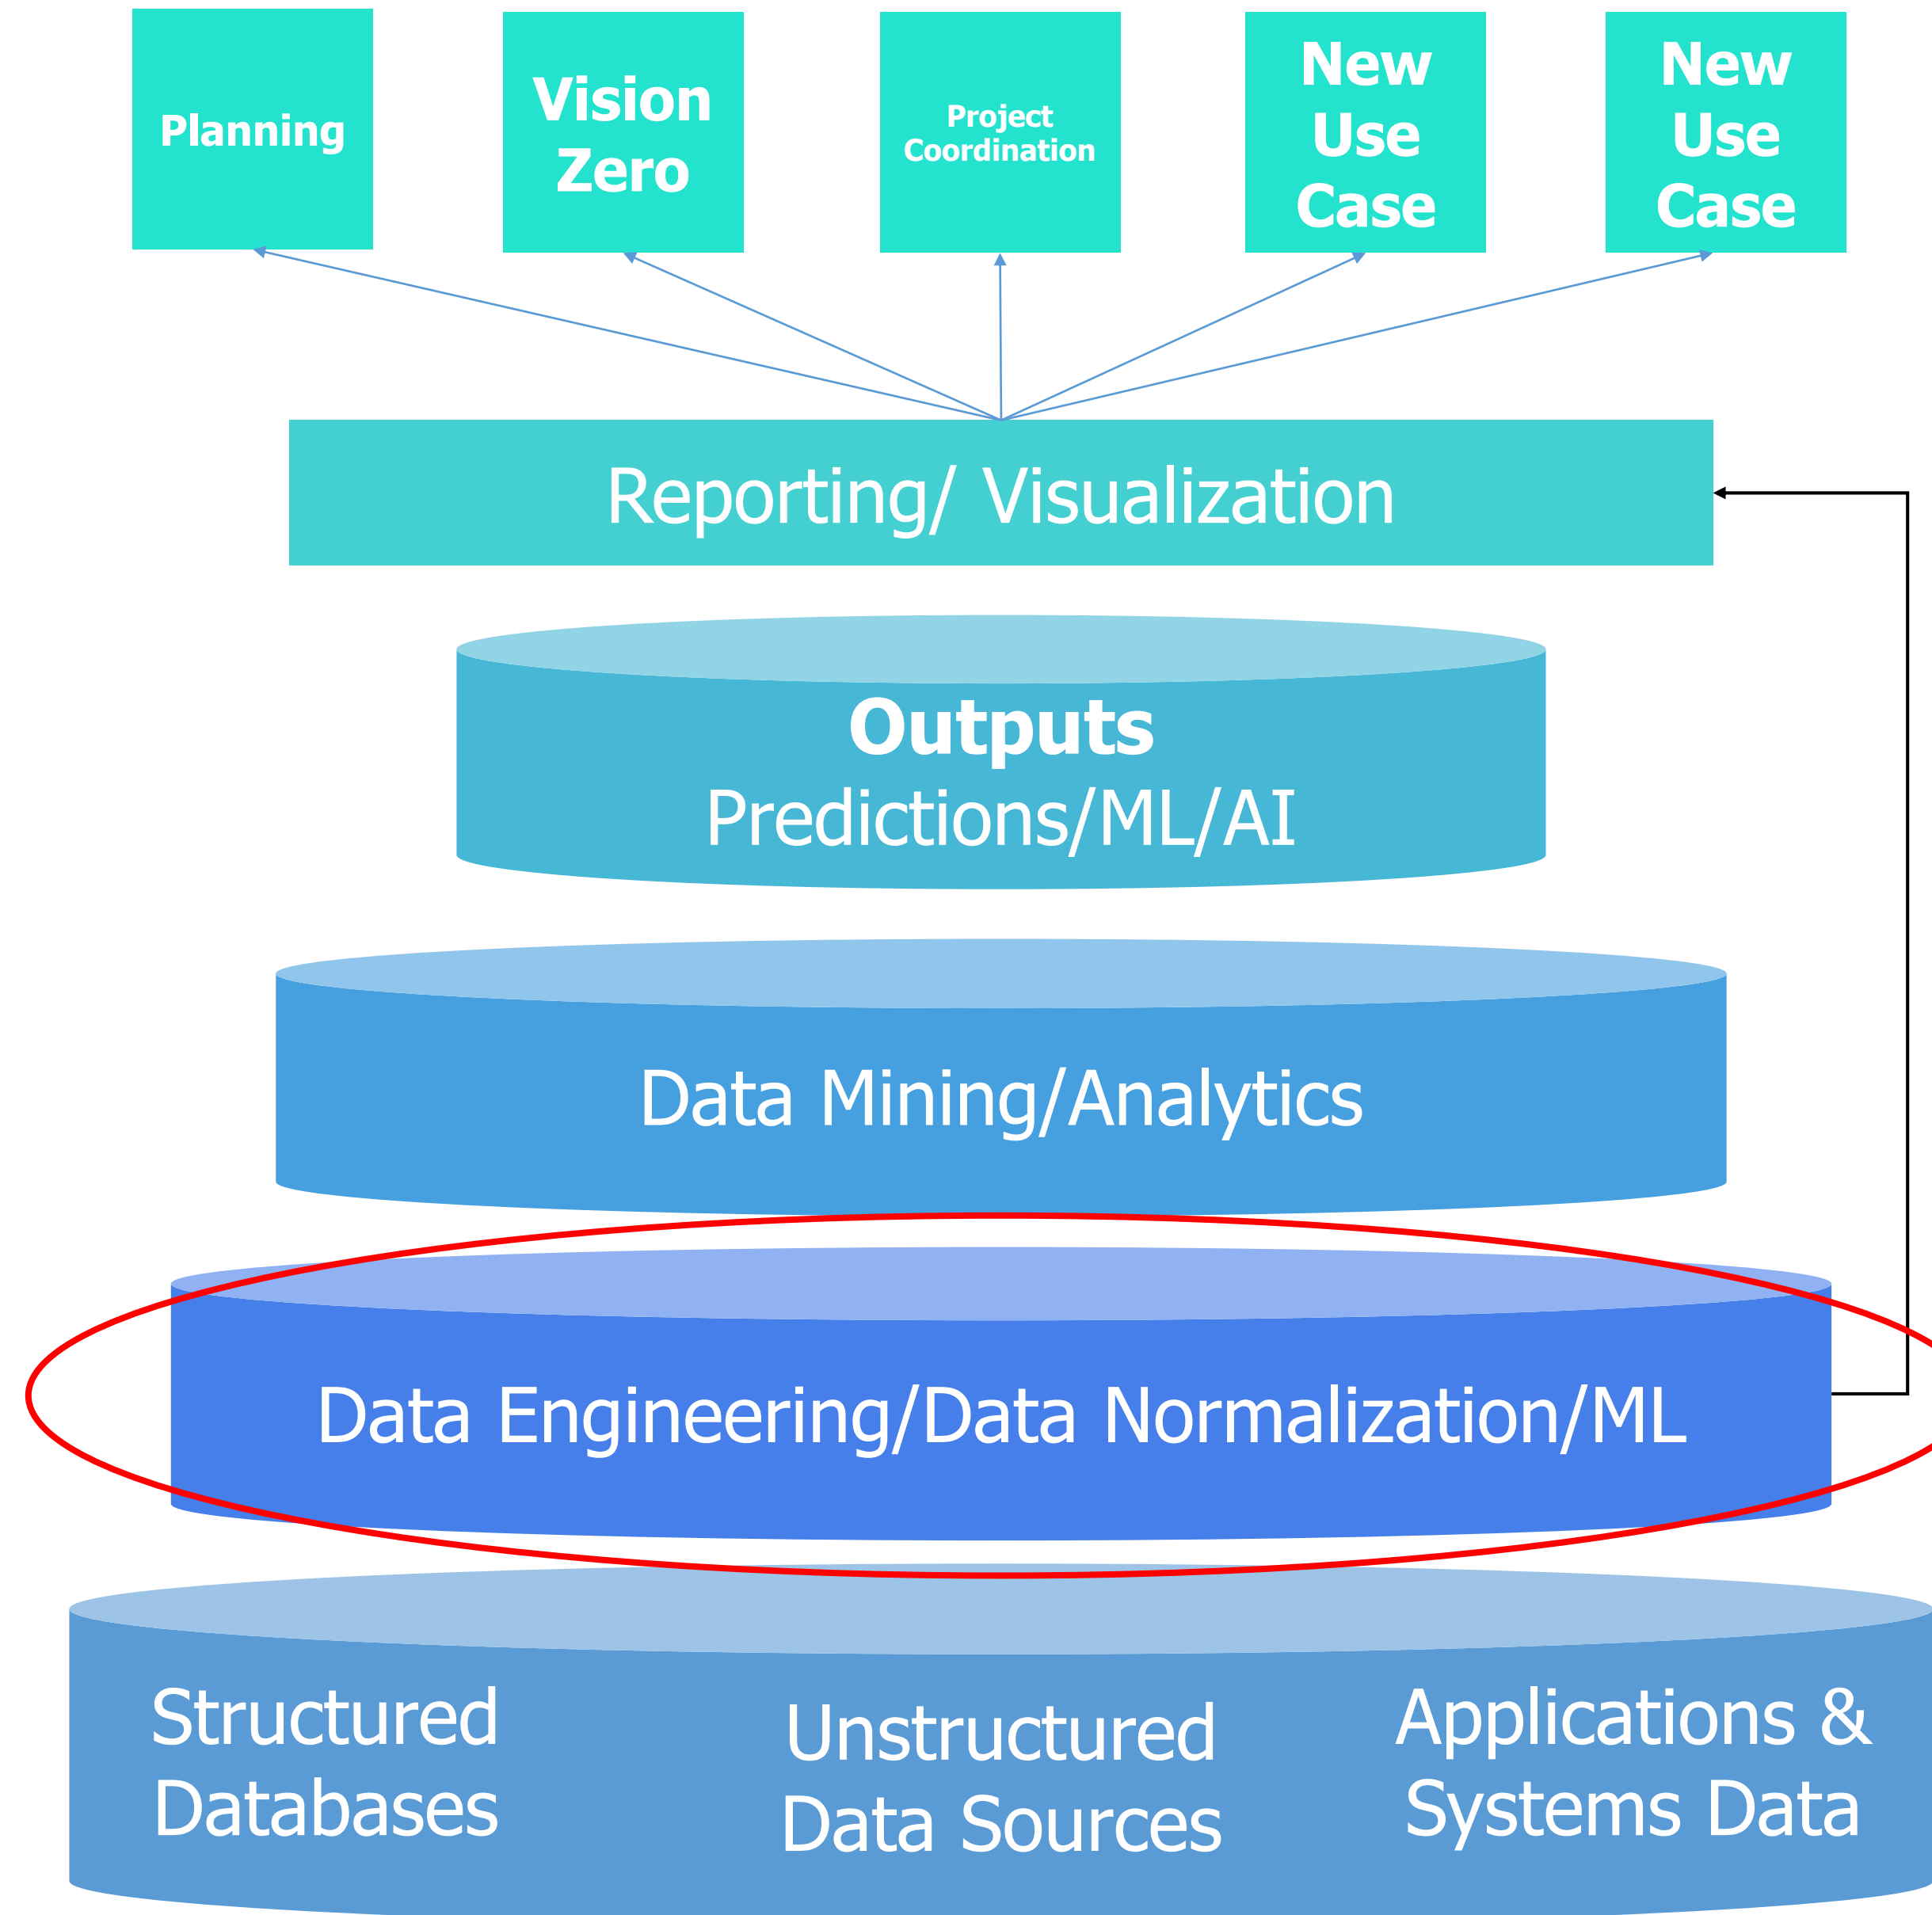

Arup

UL Prediction Algorithms

UL Data Science/ Analytics

UL Data Engineering

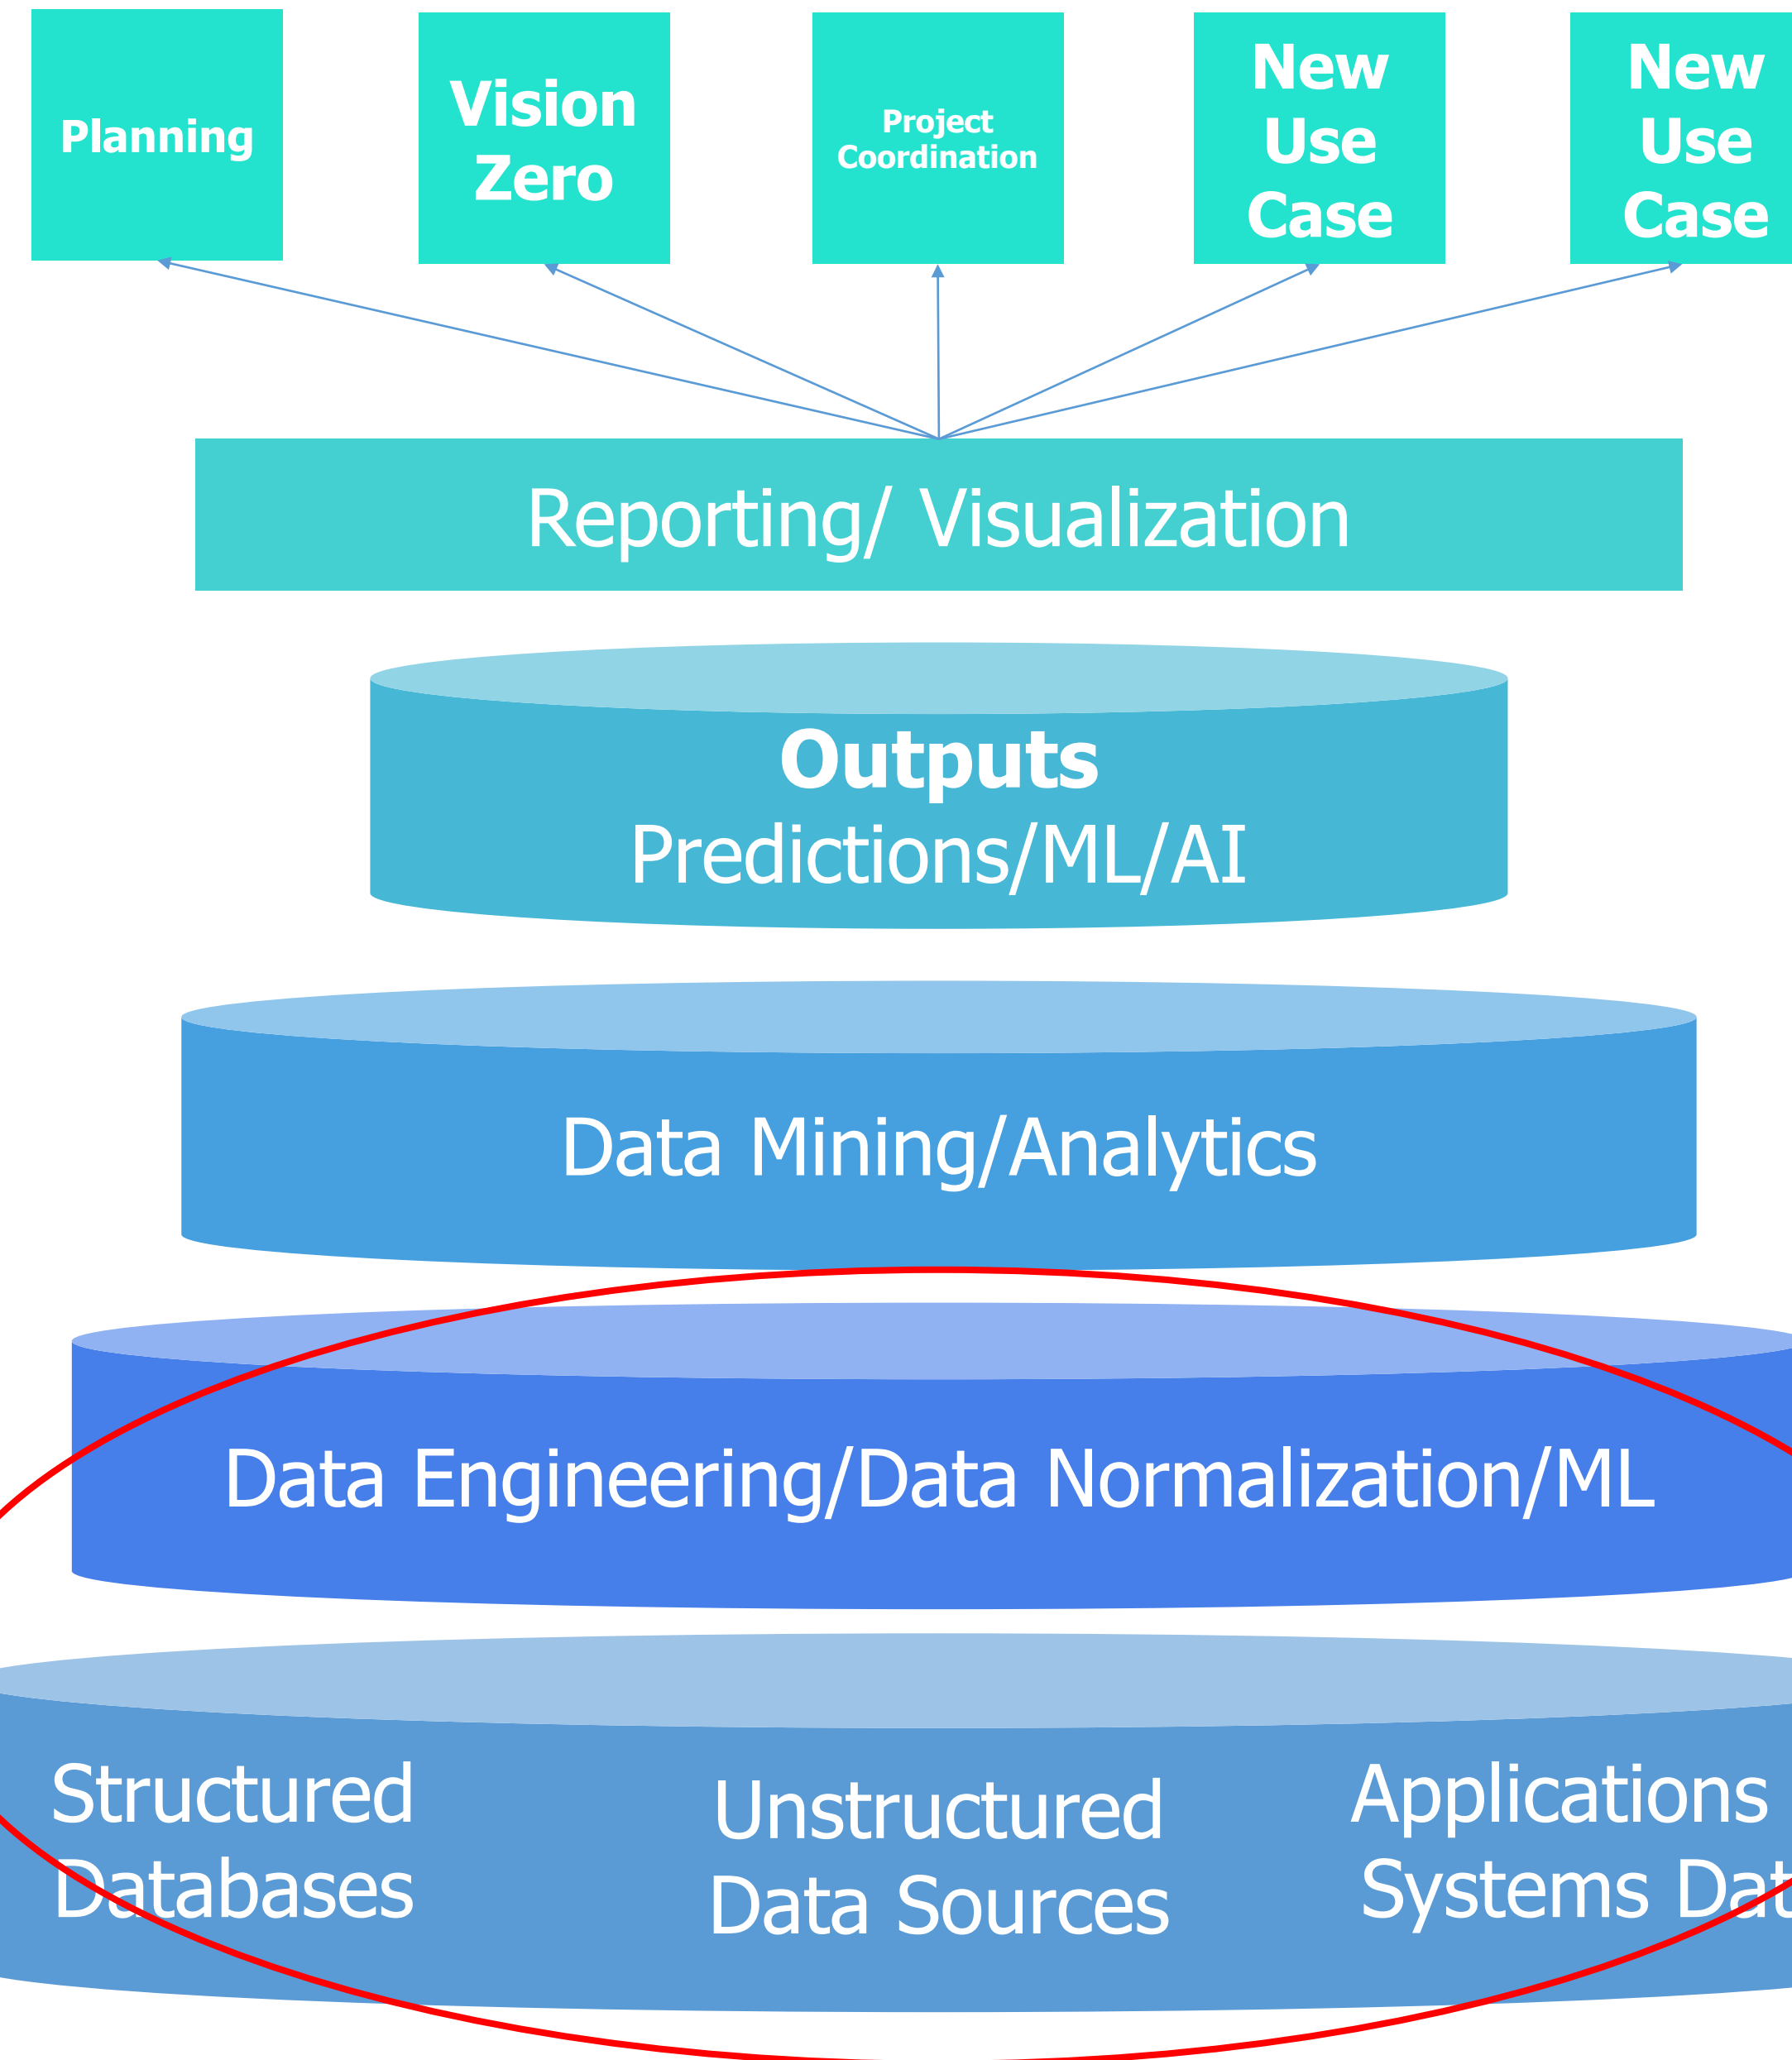

DOT Data Structure

Arup Decision Tools/ML Processing

Arup Scripting/ Mining

DOT Data Structure

If the two bottom layers are clean, more accurate analytics can be achieved

Important layers:
Clean: 20% of your time
Not Clean: 80% of your time

Mature and accurate data analytics produces more precise Predictive Modeling

Quick Victories with MOTI + Department Partners ...

Data Equity at a glance

6 projects with City departments completed in **6 months** (Parks, Recreation & Neighborhood Services (PRNS); San Jose Downtown Association, San Jose 311; Housing; Open Data)

A diverse team of career changers, local students and residents, and individuals with nontraditional pathways into the public sector—most of the team is historically underrepresented in the field.

Our work centers rigorous data analysis as an effective tool for creating choices, but **it cannot exist as only an intellectual exercise**—we must drive equitable outcomes for our residents.

Data Equity Framework

Developed by Matthew Finney (SEAS'20) & Christine Keung (HBS'20)

1 Equity Objective

What is an equitable outcome for your department and programs?

2 Equity Metric

How will we measure this?
Derived from the objective

3 Monitoring & Evaluation

How do we ensure this long-term?
Supported by City Manager's Office

Data Equity Framework

Developed by Matthew Finney (SEAS'20) & Christine Keung (HBS'20)

1 Equity Objective

What is an equitable outcome for your department and programs?

2 Equity Metric

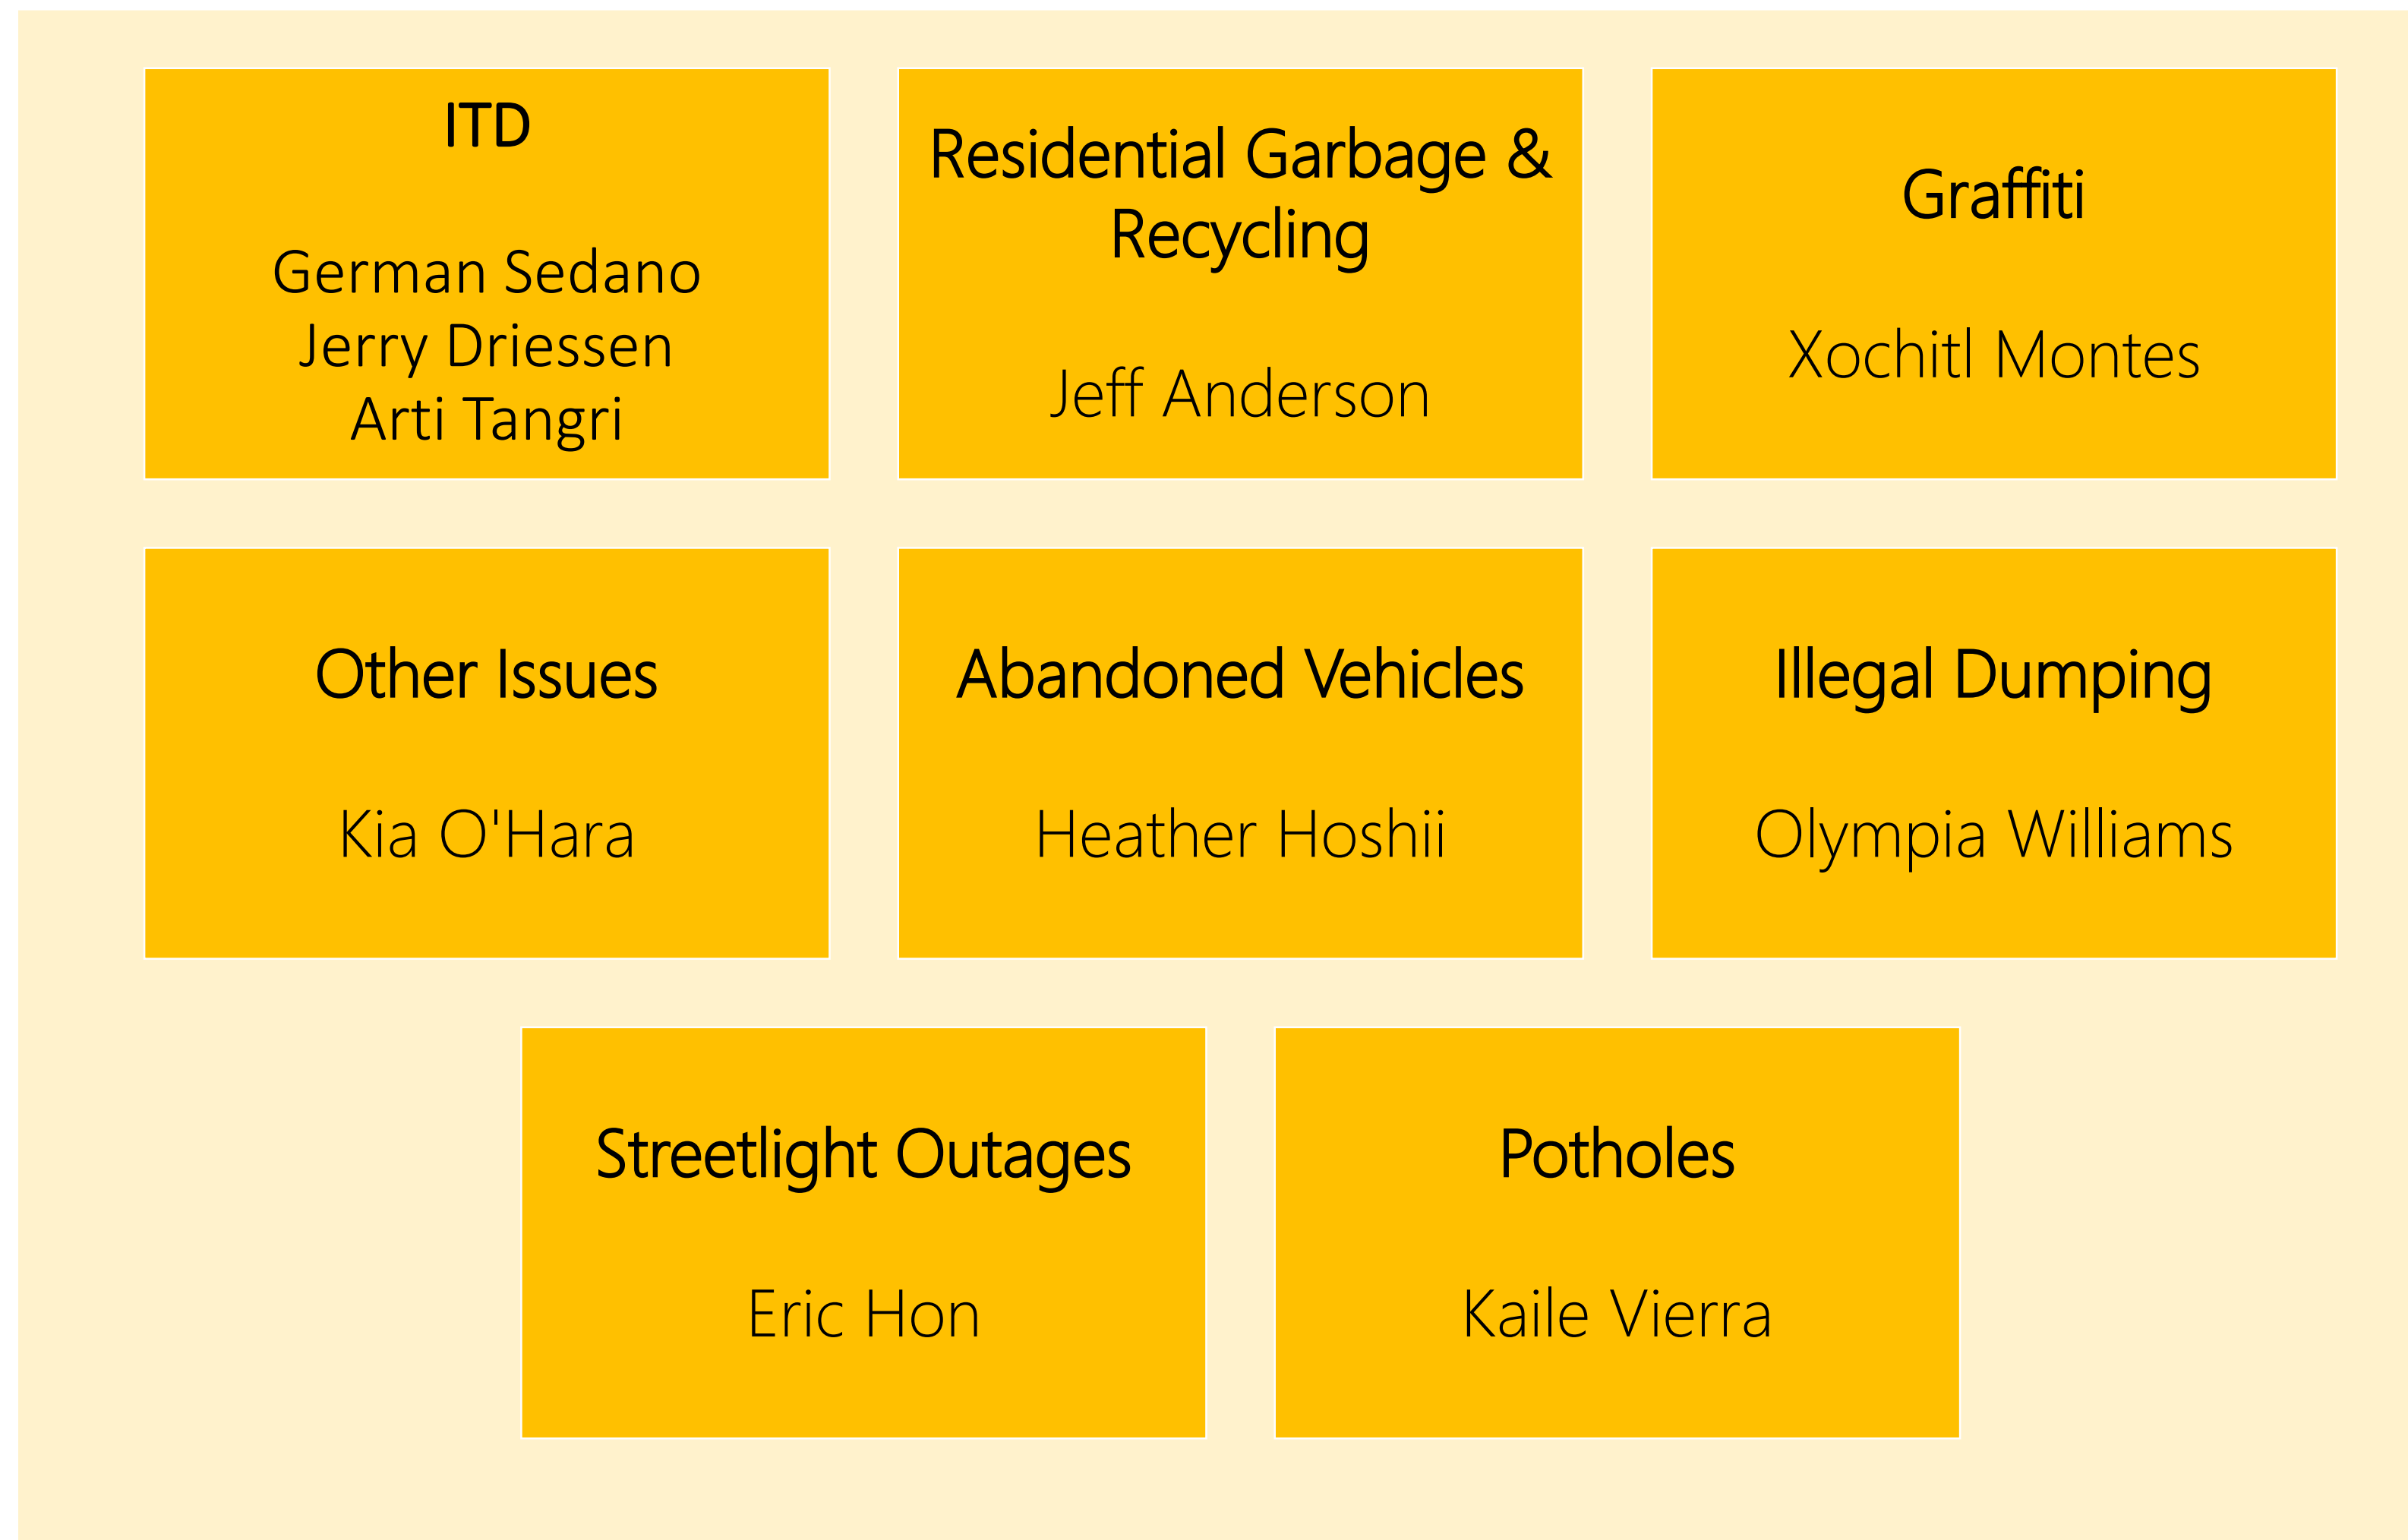

How will we measure this?
Derived from the objective

3 Monitoring & Evaluation

How do we ensure this long-term?
Supported by City Manager's Office

Who we spoke to

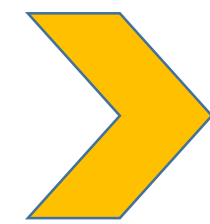

We gathered SJ311 service owners to co-create and shape a common equity objective.

Forming an equity objective

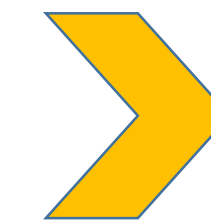

PHASE 1

**Ideating equity
objectives**

PHASE 2

**Discussing
options**

PHASE 3

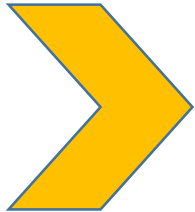

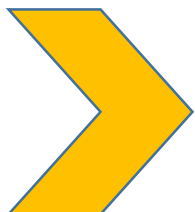

**Narrowing &
refining**

SJ311 Equity Objective

Empower **all who live, work, and play in San Jose**, especially **underreporting and heavily impacted communities**, to **submit reports via SJ311** and ensure that Services are **delivered per committed turnaround times**.

Data Equity Framework

Developed by Matthew Finney (SEAS'20) & Christine Keung (HBS'20)

- 1**  **Equity Objective** *What is an equitable outcome for your department and programs?*
- 2**  **Equity Metric** *How will we measure this?*
Derived from the objective
- 3**  **Monitoring & Evaluation** *How do we ensure this long-term?*
Supported by City Manager's Office

Metrics considerations for SJ311

Proactive + Reactive

Some services combine proactive street surveys with reactive response to report.

Closing Times

The meaning of closing times can differ greatly per service area and problem.

Need vs. Volume

How can we ensure that we are reaching all places of need and not only "squeaky wheels"?

Mapping + Predicting

Services vary in their capacity to map hotspots and anticipate areas of need.

SJ311 Equity Project Update

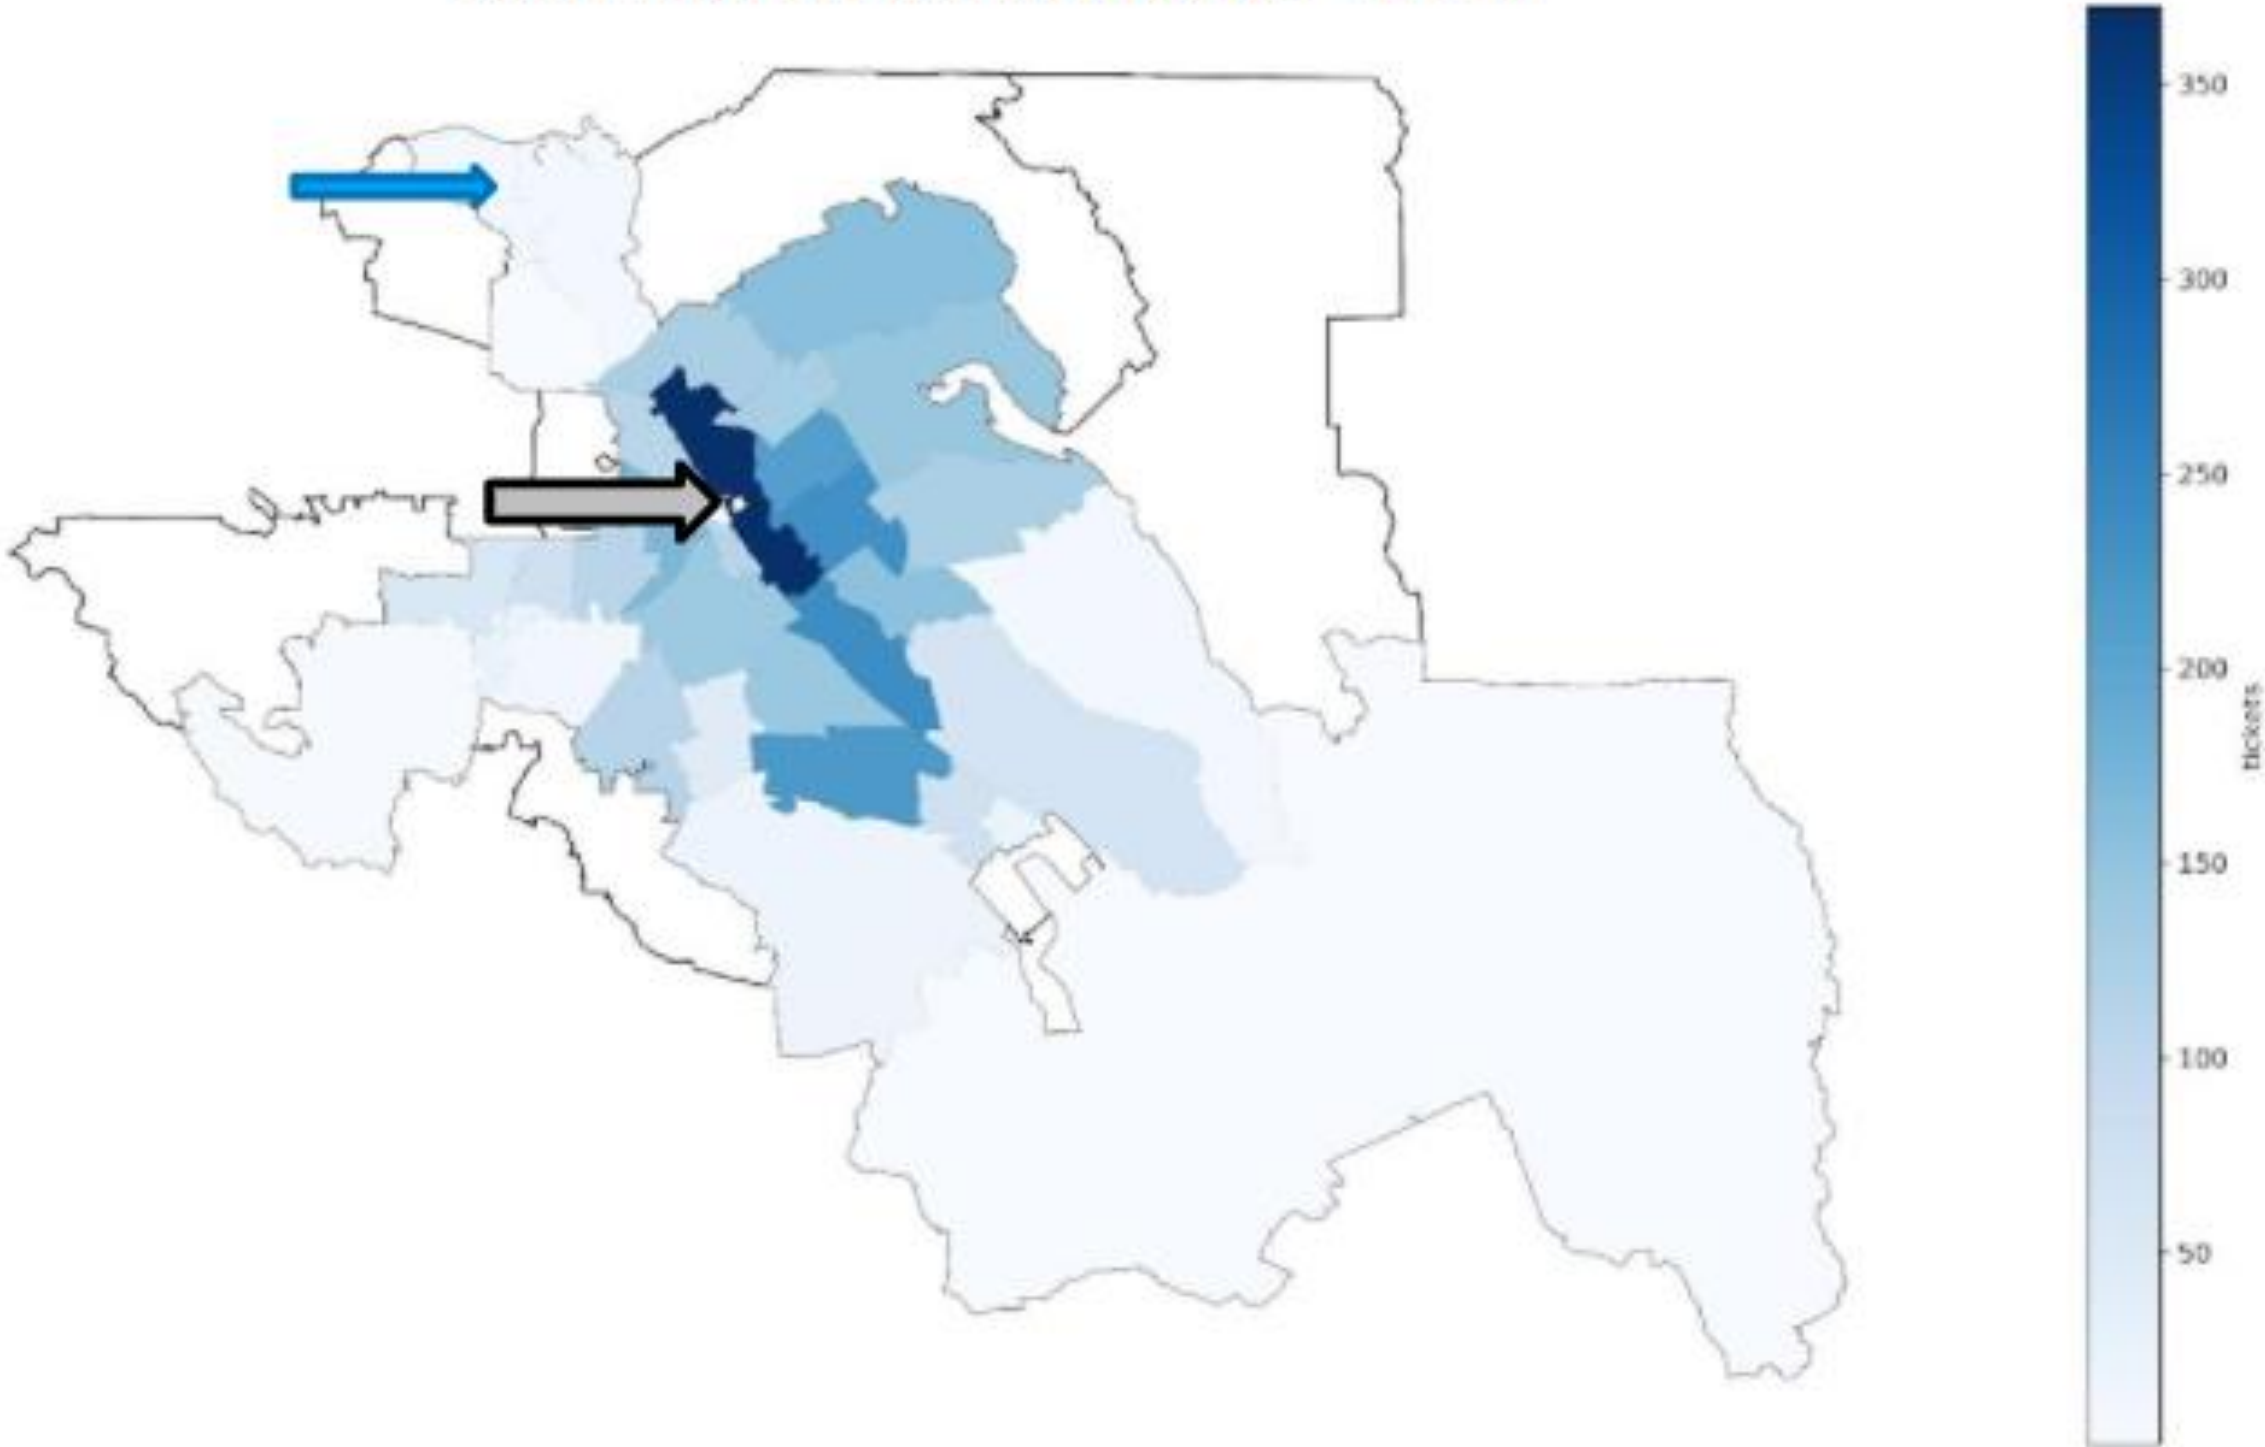

A map of Raw 311 data colored based on number of service ticket requests coming from each zip code—one way to visualize need in the city.

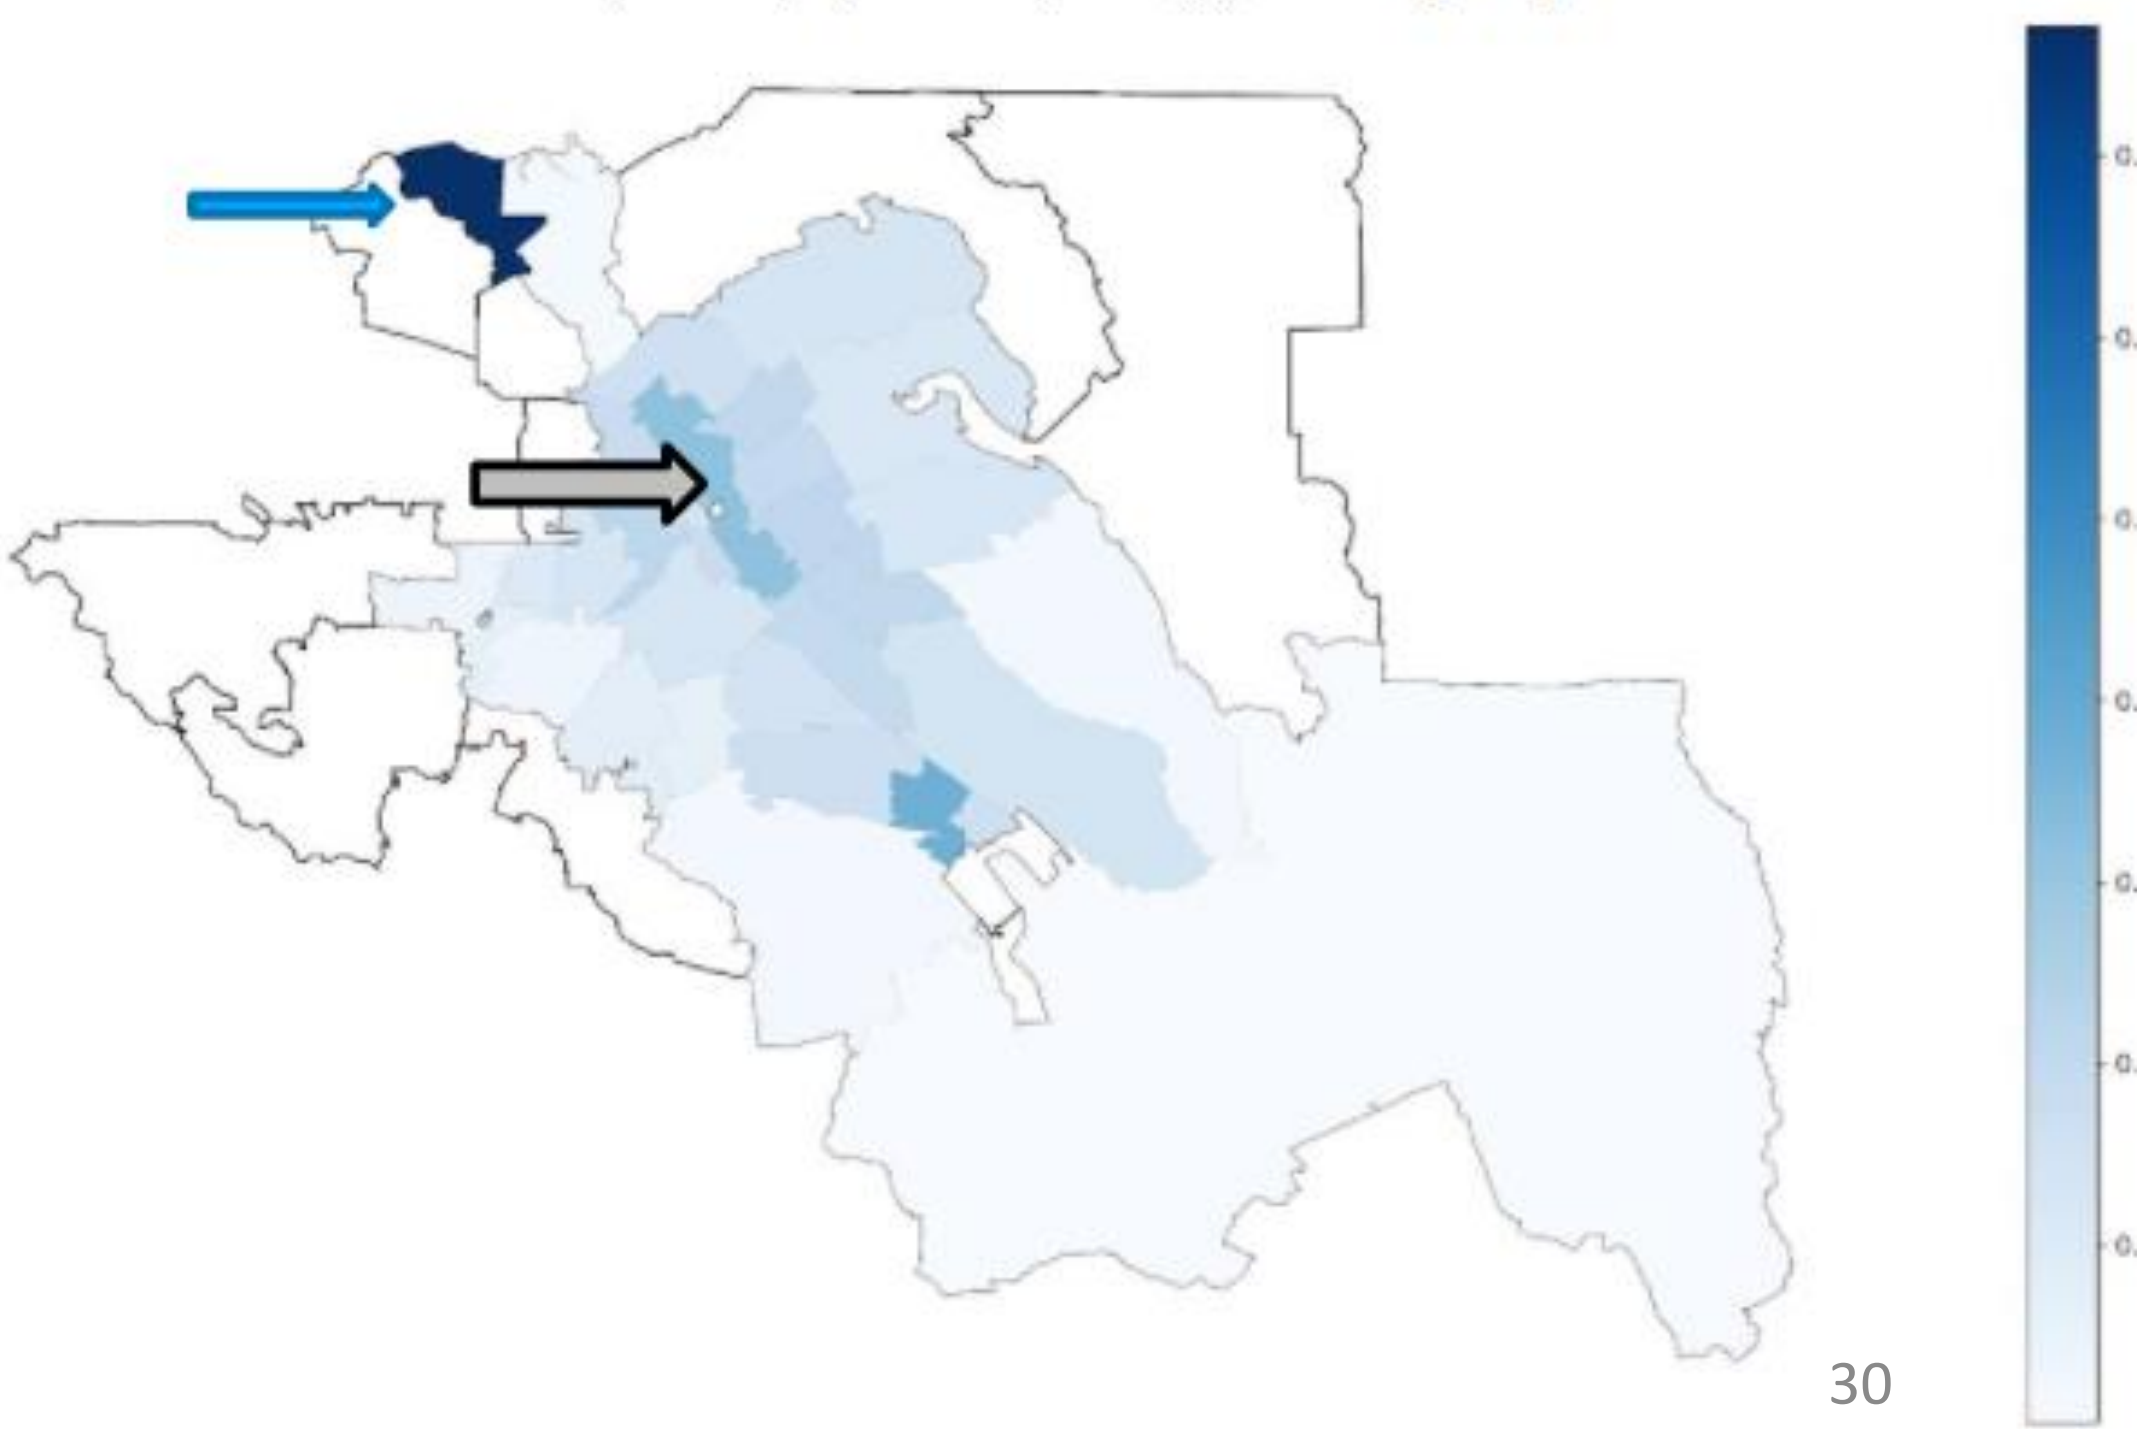

Number of tickets / number of people living in a given zip code, based on census data = tickets submitted per capita. This helps to identify where there are many requests relative to the size of the population.

311 Ticket Frequency (4/28 - 7/19)

311 Ticket Frequency per Capita (4/28 - 7/19)

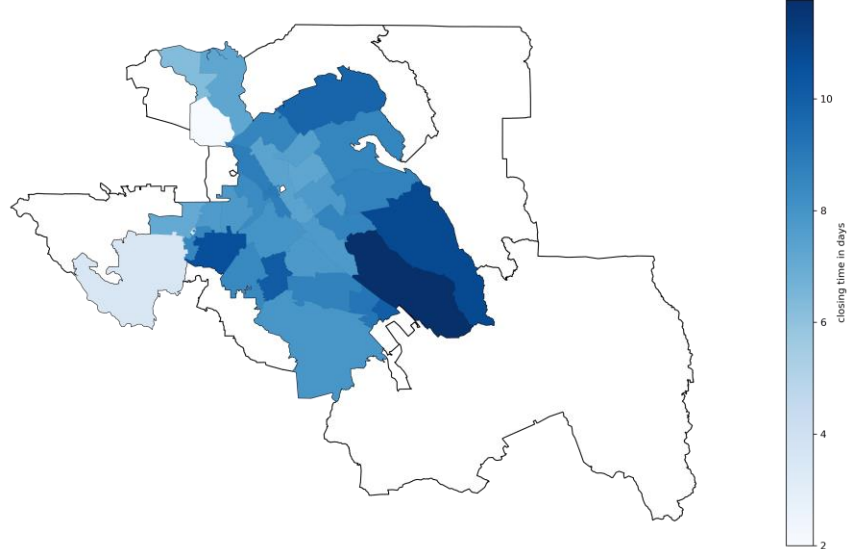

SJ311 Equity Project Update

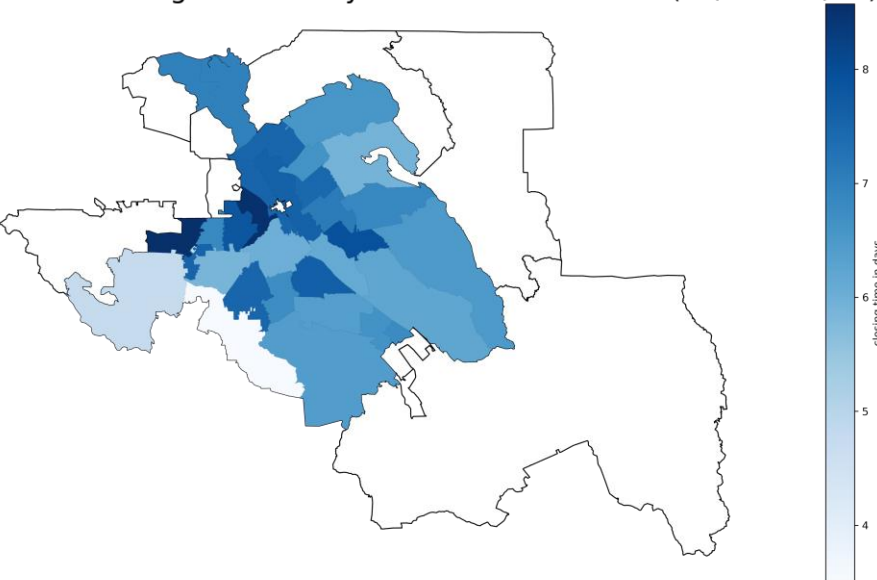

Heat maps showing the **average time to close** (measured in days) for service requests in different zip codes.

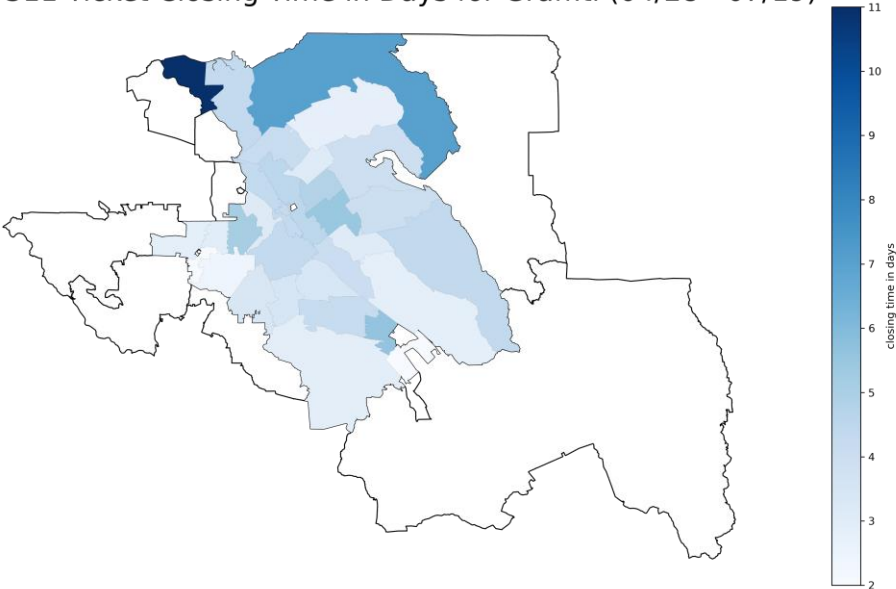

Mean 311 Ticket Closing Time in Days for Abandoned Vehicle (04/28 - 07/19)

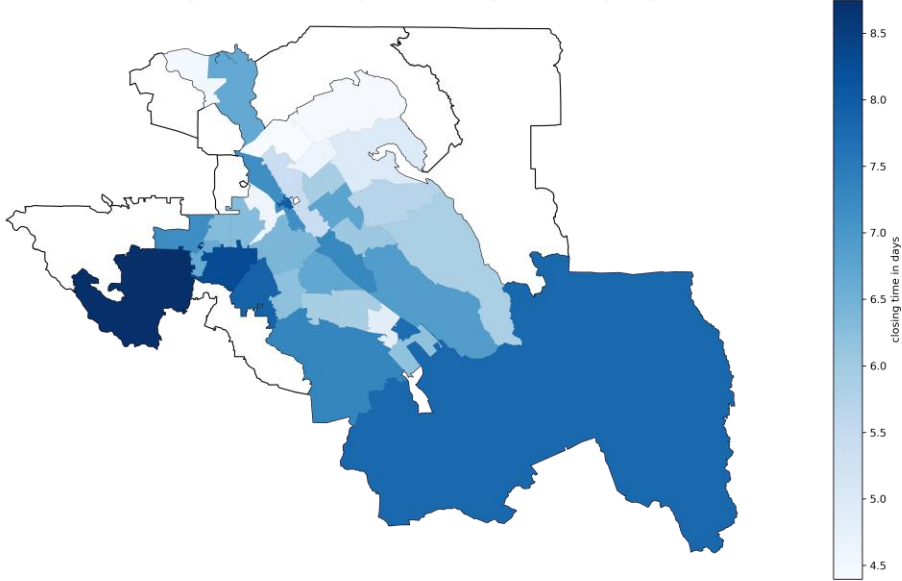

Mean 311 Ticket Closing Time in Days for Container Issues (04/28 - 07/19)

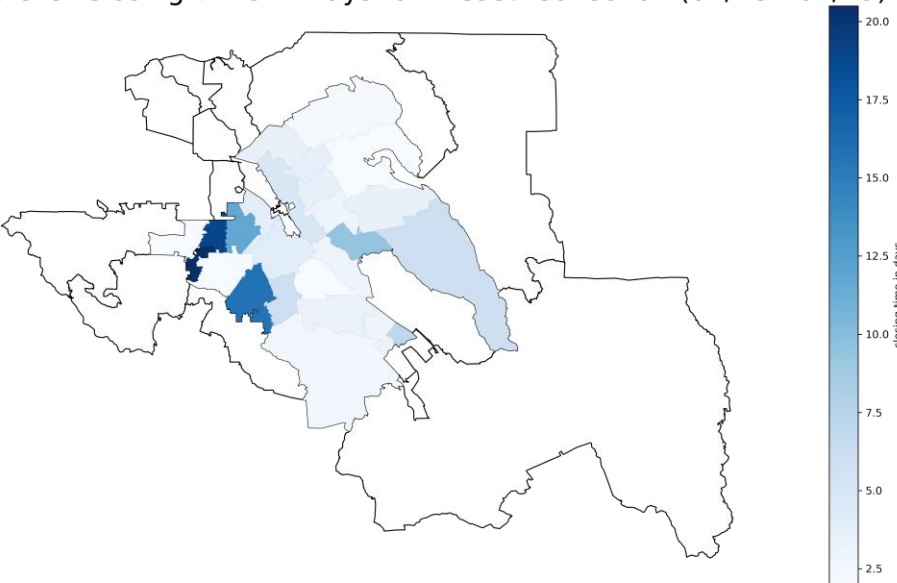

Mean 311 Ticket Closing Time in Days for Graffiti (04/28 - 07/19)

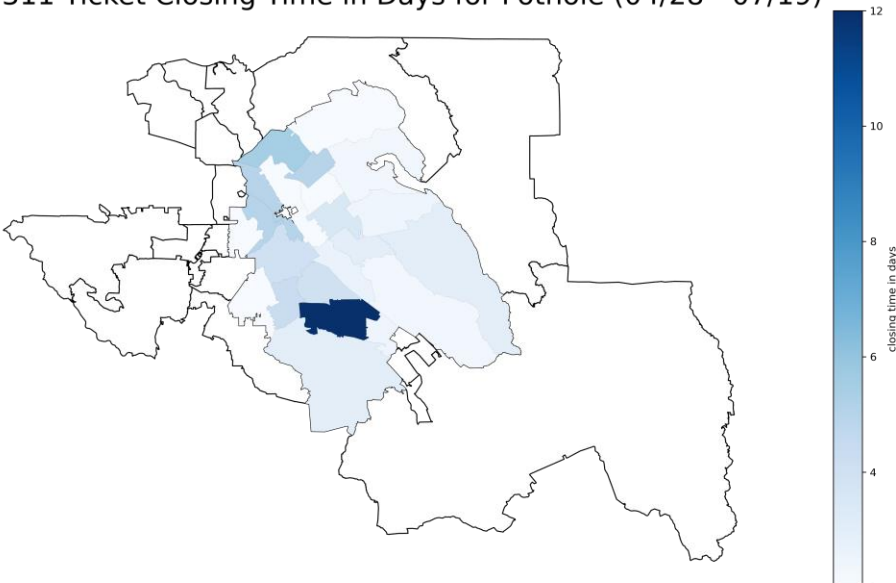

Mean 311 Ticket Closing Time in Days for Illegal Dumping (04/28 - 07/19)

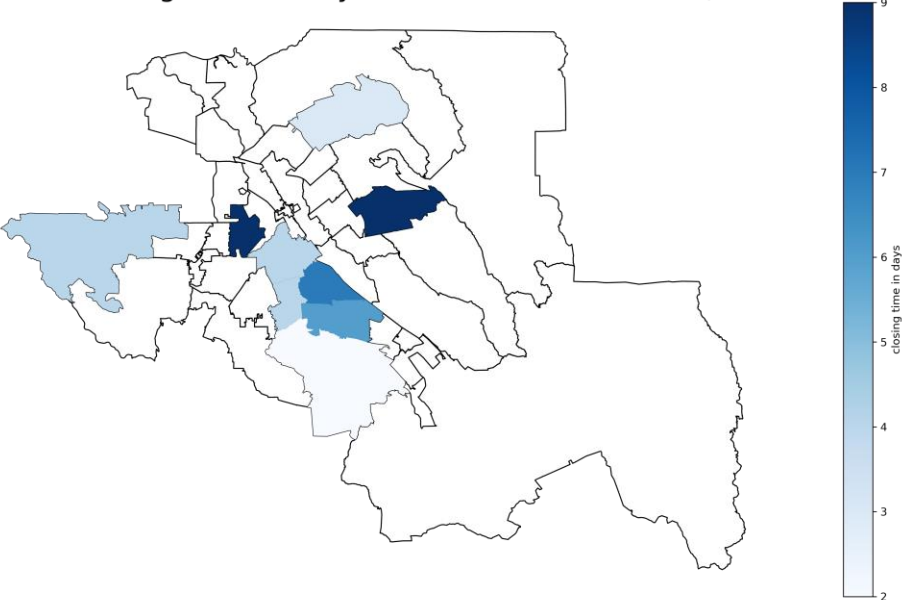

Mean 311 Ticket Closing Time in Days for Missed Collection (04/28 - 07/19)

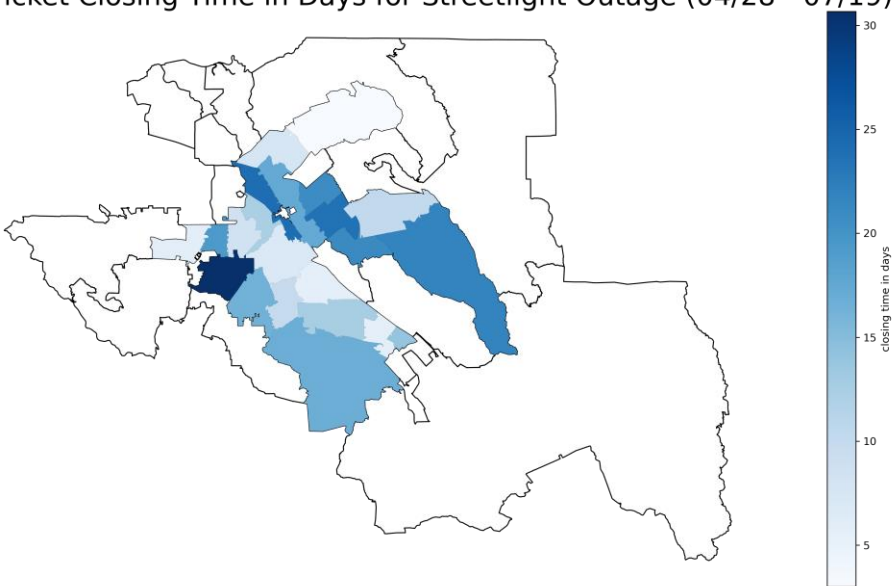

Mean 311 Ticket Closing Time in Days for Pothole (04/28 - 07/19)

Mean 311 Ticket Closing Time in Days for Start New Services (04/28 - 07/19)

Mean 311 Ticket Closing Time in Days for Streetlight Outage (04/28 - 07/19)

Connecting data to impact

MOTI is supporting the following workstreams:

CAPACITY

Support DCM in hiring a Data Equity Director for City Manager's Office of Civic Innovation

TRAINING

Support HR in making data analysis training a part of City employee's learning & development

INSIGHTS

Support ITD in integrating 311 heat maps and dashboards into internal tools for monitoring and evaluation

STORY

Support ITD in sharing data stories and encouraging use of open data by community stakeholders
