**To:** The Office of Mayor Sam Liccardo <TheOfficeofMayorSamLiccardo@sanjoseca.gov>**Cc:** Agendadesk <Agendadesk@sanjoseca.gov>

[External Email]

Dear Mayor and City Councilmembers,

I am writing in support for the resolution authorizing the City Manager to establish a quiet zone within the City of San José portion of the Warm Springs Subdivision railroad corridor, from N. Montgomery St to Horning St. In 2019, Councilmember Raul Perez led an initiative to study a quiet zone when Union Pacific Railroad (UPRR), without notice, began operating train service overnight through the Greater Downtown area. The exposure to a high decibel sound on a nightly basis over the last two years has gravely affecting the sleep of thousands of residents including families and children. The sleep deprivation our community has faced have been devastating on both our mental and physical health. The implementation will finally mitigate UPRR's horns as they traverse through the Warm Springs line. Adopting this resolution is the final step in allowing this necessary work to begin to finally restore the peace we so desperately need.

Sincerely,

Jonathan Stahlman

Adopting this resolution is the final step in allowing this necessary work to begin to finally restore the peace we so desperately need.

My home is right next to the tracks (literally) this is long overdue I attended meetings with Raul Perez, Mayor Licardo and Union Pacific in 2015 to discuss this issue and here we are closing out 2021 and we are still working on this I hope this is the last hurdle. The downtown is growing with more and more housing this quiet zone is needed in order to support the growth and attract renters and buyers.

Sincerely,

Alejandro Valenzuela

[External Email]

Dear Mayor and City Councilmembers,

I am writing in support for the resolution authorizing the City Manager to establish a quiet zone within the City of San José portion of the Warm Springs Subdivision railroad corridor, from N. Montgomery St to Horning St. In 2019, Councilmember Raul Peralez led an initiative to study a quiet zone when Union Pacific Railroad (UPRR), without notice, began operating train service overnight through the Greater Downtown area. The exposure to a high decibel sound on a nightly basis over the last two years has gravely affecting the sleep of thousands of residents including families and children. The sleep deprivation our community has faced have been devastating on both our mental and physical health. The implementation will finally mitigate UPRR's horns as they traverse through the Warm Springs line. Adopting this resolution is the final step in allowing this necessary work to begin to finally restore the peace we so desperately need.

Sincerely,

Flora Moreno de Thompson
