Councilmember Cohen made a friendly amendment to his own motion to incorporate the January 9, 2023 memorandum authored by Councilmember Omar Torres into the report that will return to the Transportation and Environment Committee in June 2023. Councilmember Davis approved this amendment.

Councilmember Doan requested a provision for the City to pay for damages on sidewalks caused by tree damage.

City Manager Jennifer Maguire responded that the City has offered sidewalk programs in the past that were extremely costly to the General Fund. The City Manager suggested if the Council would be interested, the discussion on this topic can be included in the June 2023 Transportation and Environment report and weighed against other General Fund budget priorities.

Councilmember Peter Ortiz requested a friendly amendment regarding the January 9, 2023 joint memorandum by Cohen, Davis, and Jimenez, Item 5, to set a threshold, that should a district make less than \$150,000 in in-lieu fees, all of the fees shall be returned to the district in which it was collected. If \$150,000 or more is collected, the 50% of fees that does go to the tree mitigation fund, those funds must be prioritized to City areas having the least amount of canopy or greatest amount lost over the years.

Councilmember Cohen instead recommended returning to the June 2023 Transportation and Environment Committee meeting to discuss a policy recommendation that will determine how, the city will use equity-based considerations in allocating the outstanding funds the city currently has, and future funds that go into the city-wide fund.
