1. Recommend Council discuss a more complete definition for Racial Equity (as defined by GARE), seek input from community stakeholders, and return to Council with a recommendation for Council adoption:

**WHAT IS RACIAL EQUITY?**

Racial equity is realized when race can no longer be used to predict life outcomes, and outcomes for all groups are improved.

Racial equity means we eliminate racial disproportionalities so that race can no longer be used to predict success, and we increase the success of all communities.

We set goals and measures to track our progress, with the recognition that strategies must be targeted to close the gaps. Systems and structures that are failing communities of color are actually failing all of us, economically and psychologically. Advancing racial equity is to our collective benefit.

(<https://www.racialequityalliance.org/faq/racial-equity-strategy/>)

2. Direct Staff to include in their next report to NSE initial plans for a comprehensive Citywide Equity Framework to be spearheaded by our Office of Racial Equity, and coordinated through the City Manager’s Office with all City departments. (a) This Framework should provide a path to achieving the goals and strategies adopted by Council in our adoption of the Equity Pledge in June 2020 that will enable us to make measurable, substantive, and transformative change in our communities of highest need through providing baseline service outcomes in delivery of city services. This should include benchmarks to measure tangible results in our communities.
