Actions Related to the San José Clean Energy Residential Transition to Time-of-Use Electric Rates.

Adopt a resolution approving:

- (a) A transition of eligible residential San José Clean Energy customers, on a default, “opt-out” basis, to the existing Time-of-Use electric rate E-TOUC in November 2020; and offer bill protection to customers for one year to ensure that at the end of one year of service on new rates, no participating customer will have paid more on the new rate; and
- (b) A rate design allowing San José Clean Energy to match any rate structure from Pacific Gas & Electric Company’s standard rates; provided that, notwithstanding any changes to the rate structure, San José Clean Energy’s GreenSource product will be at a one percent (1%) below Pacific Gas and Electric Company’s generation rates after accounting for the franchise fee surcharge and the Power Charge Indifference Adjustment. CEQA: Statutorily Exempt, File No. PP17-005, CEQA Guidelines Section 15273, Rates, Tolls, Fares, and Charges. (Community Energy)
