GIS Analysis for Emergency Housing on Caltrans Land. (Mayor and Mahan)

Direct the City Manager to:

1. Conduct a citywide GIS analysis of all vacant properties in San José owned by Caltrans that are at least 1 acre in size where short-term emergency housing may be feasible. The analysis should include but not be limited to the five Caltrans sites identified by the California Department of General Services (DGS) per CA Executive Order N-23-20.
2. Present the findings of the analysis to the City Council no later than Spring 2021 and seek further Council direction at that time.
