RECOMMENDATION

SUMMARY AND OUTCOME

Provide the quarterly update on debt management, investment management, revenue management, purchasing, and risk management activities.

BACKGROUND

The attached Second Quarter Financial Reports for Fiscal Year (FY) 2025-2026 (quarter ended December 31, 2025) (Financial Reports) present the quarterly activity for the City of San José (City) Finance Department's Debt Management, Investment Management, Revenue Management, Purchasing, and Risk Management programs (Attachment A). Additionally, the Second Quarter Investment Report for the Quarter

Ended December 31, 2025, (Attachment B) is available on the Finance Department web page¹ and is included with this report to the Public Safety, Finance and Strategic Support Committee (PSFSS Committee). As part of the ongoing effort to streamline work efforts within the Finance Department, these programs are combined into a single report for submission to the PSFSS Committee for its review and referral to the City Council for acceptance.

ANALYSIS

A brief narrative discussion is provided below for all programs in this quarterly report.

Debt Management Program

This report discusses the City's completed debt activities for the period ended December 31, 2025 and relates to the following elements of the City's Debt Management Program:

- Completed financings and current debt portfolio;
- Debt issuance, redemptions, and management activities completed during the second quarter;
- Current interest rate environment as of December 31, 2025; and
- Credit ratings.

Investment Management Program

Pursuant to the City's Investment Policy, verbal presentations, in addition to the written reports, are provided to the PSFSS Committee for the Second and Fourth Quarter Reports only. The materials presented in this consolidated report provide a "snapshot" of the investment portfolio.

Revenue Management Program

The Revenue Management report highlights key aspects of the City's ongoing collection efforts. These efforts focus on reducing delinquent accounts receivable and enhancing revenue compliance through four primary collection programs: Accounts Receivable, Business Tax, Revenue Compliance and Monitoring, and Utility Billing. This report highlights the Revenue Management Division's collection efforts and summarizes the progress towards maintaining a Return-on-Investment ratio of 5.0 to 1. The Second Quarter FY 2025-26 ratio is 4.5 to 1, and FYTD 2025-26 return on investment is 4.85 to 1.

Overview of Collection Process – City departments issue invoices for various fines, fees, or other costs incurred by the City. Invoices are entered in the City's

¹ <https://www.sanjoseca.gov/your-government/departments-offices/finance/reports/-folder-450>

centralized Accounts Receivable system or referred to the Accounts Receivable group for accounts generated by City departments through stand-alone billing systems. Each department is responsible for the initial invoicing of the appropriate parties.

If an account has an unpaid balance after 30 days, a delinquency notice, including any additional interest, penalties, and applicable fees, is generated, and mailed to the debtor. The account is then assigned to an Investigator Collector in the Finance Department, who begins the revenue collection process by contacting the debtor to attempt to collect the past due amount. After 60 days, a second collection notice, including any additional interest, penalties, and other fees, is mailed to the debtor. At this point, a collection cost recovery fee is added to each account. This cost recovery fee is reviewed and set on an annual basis. After approximately 120 days, the Senior Investigator Collector reviews each remaining delinquent invoice with Investigator Collectors to determine the appropriate action to take against the debtor to collect the outstanding balances.

Purchasing Program

The Purchasing report highlights the key aspects of the City's purchasing operations. The Purchasing Unit is responsible for the centralized procurement of equipment, supplies, materials, information technology, and general services, pursuant to Chapter 4.12 of Title 4 of the San José Municipal Code. The Purchasing Unit's objective is to deliver procurement and contracting services pursuant to public procurement best practices.

Risk Management Program

The Risk Management report highlights the key aspects of the City's Risk Management Program. The Risk Management Unit is responsible for the procurement and oversight of the City's property and casualty insurance programs. The Risk Management Unit also provides contractual risk management services, property subrogation claims reporting, and other key services to City departments including enterprise departments such as the Airport Department and San José – Santa Clara Regional Wastewater Facility.

EVALUATION AND FOLLOW-UP

The Finance Department prepares this report on a quarterly basis for review and approval by the PSFSS Committee. Finance Department staff will be available to present the investment report and to answer questions on the Financial Reports at the PSFSS Committee meeting on February 19, 2026, and will be available to answer questions on the reports at the City Council meeting on March 10, 2026.

PORTFOLIO STATISTICS

Detailed information can be found in the attachments while summaries are provided below.

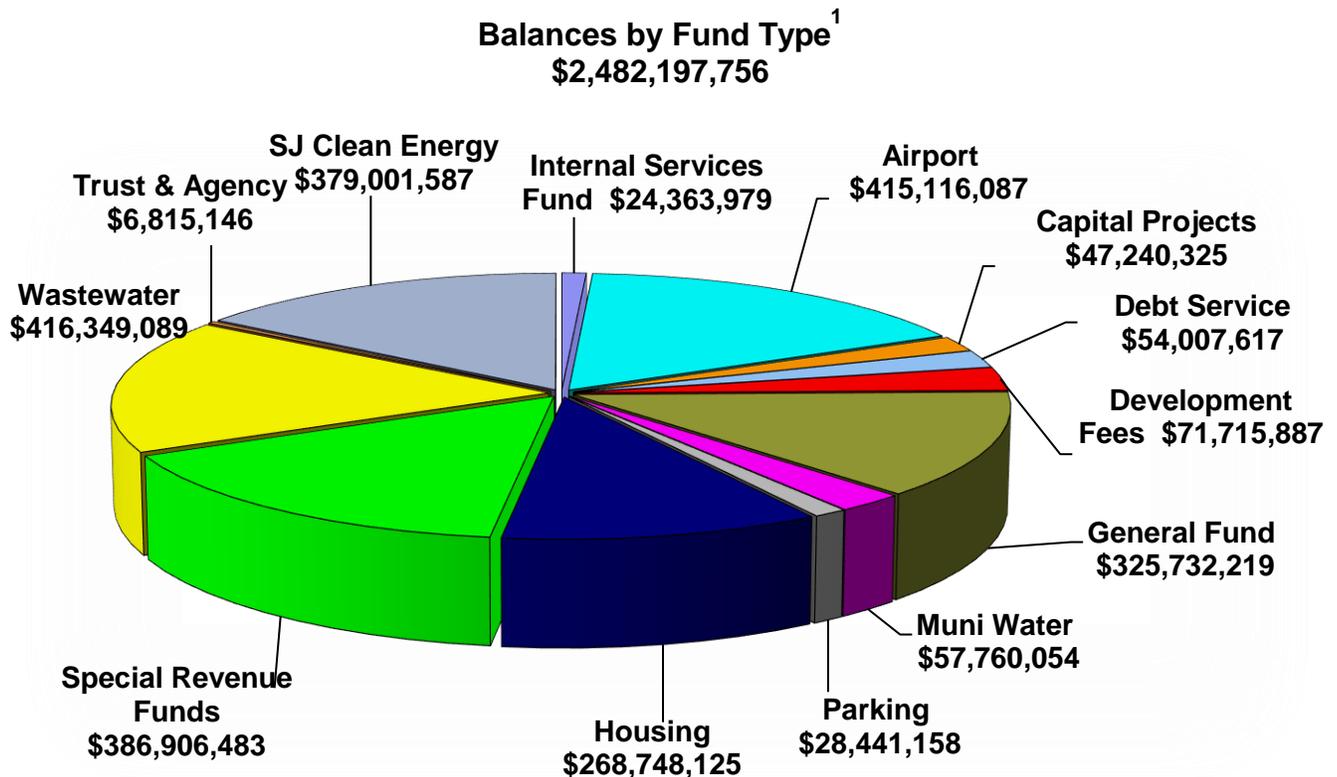

Portfolio Composition

Within this section are snapshots of the City's total investment portfolio as of December 31, 2025.

The first graph shows the portfolio composition by investment type.

The graph below reflects the reconciliation of total balances reported by the investment program's record-keeping system to the City's Financial Management System (FMS).

Portfolio Balance	\$2,493,932,545
General Banking Balance	3,786,457
Deposit-in-Transit, Outstanding Checks ²	<u>(15,521,246)</u>
Total Balances per FMS	\$2,482,197,756

¹ General Fund includes \$114,623,917 of General Fund (Fund 001) as well as \$211,108,302 of other General Fund funds which are separately tracked including the Depositor Fund, Developer Fees, Real Property Transfer and other smaller funds and reserves.

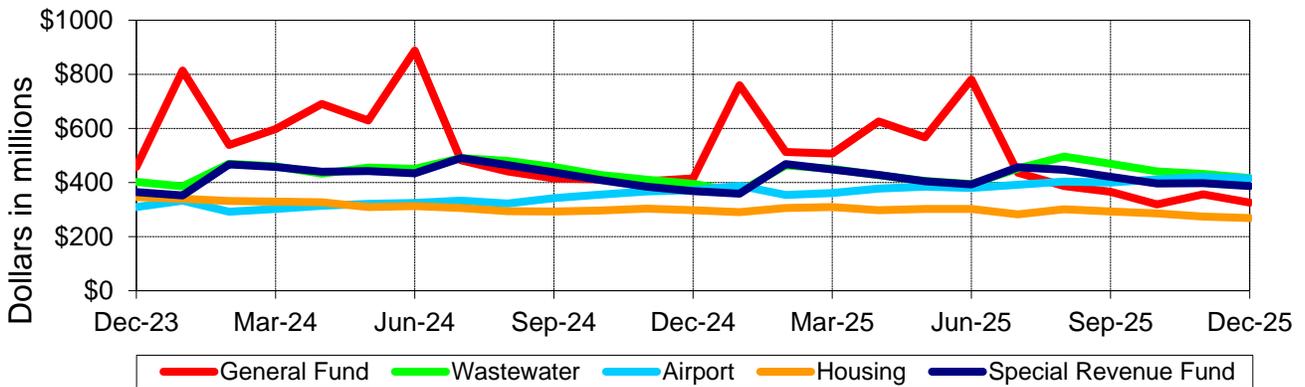

² Reflects timing difference between when deposits are made and accounted for in FMS or when checks are written and not yet cashed by the receiving party.

General Fund Balances

The General Fund balances decreased by \$40 million during the quarter and ended with a balance of \$326 million as of December 31, 2025. General Fund cash balances usually peak during the months of January and June, when the bulk of property taxes are received, and decline in the summer months due to retirement prefunding, debt service payments and operational expenditures.

The following graph compares monthly balances of five largest City funds as reported by FMS.

**Monthly Comparison of Balances by Fund Type
 December 2023 – December 2025**

Prefunding of Annual Retirement Contributions

The City opted to prefund Police and Fire Retirement Plan Tier 1 annual employer retirement contributions along with Other Post-Employment Benefit (OPEB) contributions for Fiscal Year 2024-25 with cash and matured investments on July 1, 2025. The total prefunding amount was \$227 million.

Successor Agency to the Redevelopment Agency of the City of San José

Historically, the Redevelopment Agency participated in the City investment pool with both restricted bond proceeds and operating cash balances. As of February 1, 2012, redevelopment agencies in California were dissolved by legislative action and the City, as the Successor Agency to the Redevelopment Agency (SARA), transferred the Redevelopment Agency funds from the investment pool to SARA bank accounts. In July 2018, the City entered the final stage of dissolution and absorbed the remaining SARA operations into City operations. City staff will continue to manage SARA’s accounts until all assets are liquidated and bonds are redeemed.

As of December 31, 2025, SARA reported cash balances as outlined in the table below:

SARA CASH SUMMARY	
	<u>Pledged for Bond/Enforceable Obligations</u>
LAIF	\$6,591,126
Wells Fargo General Account:	\$132,188
Wilmington Trust Funds	<u>\$21,941</u> (A)
TOTAL	<u>\$6,745,255</u>

(A) Funds restricted for tax allocation bond debt service payments

Yield and Maturity Trend

The following graph illustrates the monthly dollar-weighted average maturity (WAM) of the Portfolio (bar graph) along with the weighted average yield (line graph) for the past two years.

**Portfolio Yield and Maturity Trends
 December 2023 – December 2025**

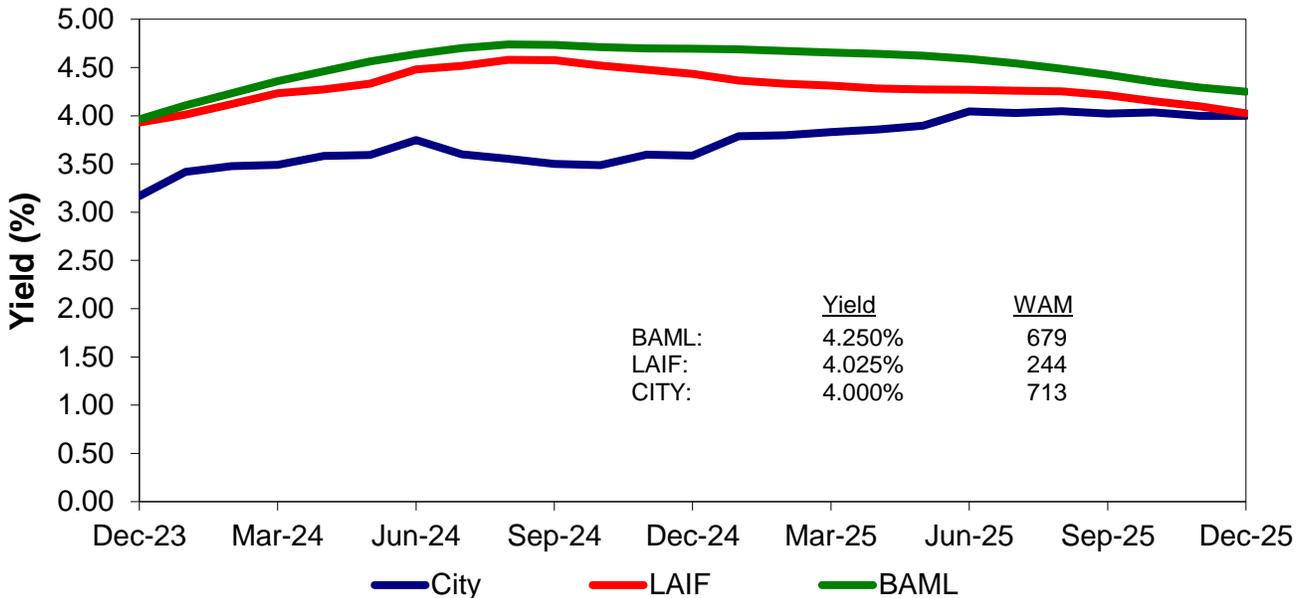

The Portfolio’s WAM increased from 669 days on September 30, 2025, to 713 days on December 31, 2025. The weighted average yield decreased from 4.022 on September 30, 2025, to 4.000 on December 31, 2025. The increased WAM is due to a decreased cash position relative to longer-term fixed investments. The portfolio overall decreased in size with expenses outpacing revenue collections for the period. Throughout the quarter, cash-like investments continued to pay higher levels of interest than longer-term investments. The downside of these shorter-term investments is that they respond immediately to decreases in the overnight Fed Funds Rate and are very sensitive to changes in Federal Reserve policy actions.

December saw the Federal Reserve decrease the overnight rate by a 25 basis points. Expectations are that economic activity is softening, and further rate cuts will be in the future, although the exact timing is uncertain. By purchasing longer-term investments, the City’s portfolio will lock in a lower return than cash at the time of purchase but will be able to hold that rate for the life of the investments, while cash returns decline.

Comparison with Benchmarks

The City’s Portfolio is compared against benchmarks for performance purposes. The following graph demonstrates a yield comparison by month of the City’s Portfolio, the California LAIF, and the BAML Index for the period from December 2023 to December 2025.

**Portfolio vs. Benchmarks
 December 2023 – December 2025**

Notes:

1. **City** refers to the City's Portfolio, and the yield data are month-end weighted average yields.
2. **LAIF** refers to the State of California Local Agency Investment Fund and yield data are average monthly effective yields.
3. **BAML** refers to the Bank of America Merrill Lynch 1-3 Year AAA-A US Corporate & Government Index, and yield data are rolling 2-year effective yields.

LAIF is a short-term investment option available to local agencies in California. LAIF’s WAM was 244 days as of December 31, 2025, much shorter than the City’s portfolio WAM of 713 days. As the graph above shows, short-term investments such as LAIF are very sensitive to rate moves and decline when the overnight rates decline. The City has a longer portfolio and was able to lock-in rates when they were higher and thus the portfolio’s yield does not decline as rapidly as LAIF. As rates continue to come down, the City’s portfolio will likely begin outpacing the shorter LAIF.

The BAML Index is a broad market index that tracks dollar-denominated, investment-grade, bonds with a remaining maturity of up to three (3) years. To simulate an index portfolio for comparison purposes, Treasury staff calculates a 2-year rolling average of daily BAML Index effective yields. The City’s Investment Policy allows investments, in several sectors, up to a 5-year final maturity. Similarly to LAIF, as the yield curve normalizes, staff expects to see the BAML yield decline, however, since this is a two-

year rolling average rather than a single rate, the decline in yield will be markedly slower than LAIF.

Unrealized Losses and Gains

As shown in the Investment Summary Table on page one of this report, the total portfolio size as of December 31, 2025, was approximately \$2.49 billion. The following table illustrates the net unrealized gains or losses on the portfolio when comparing the portfolio’s market value to both its original cost and amortized cost for the quarter ending December 31, 2025.

UNREALIZED GAINS & LOSSES			
Cash Basis			
	Original Cost	Amortized Cost

An inverse relationship exists between changes in interest rates (Yield) and the value (Price) of fixed income investment securities. As interest rates decrease, the value of fixed income investments increases. Conversely, as interest rates increase, the value of fixed income investments decrease. The City’s investment practice, per the Investment Policy, is generally to hold securities to maturity, with exceptions as noted in the Investment Policy. The net unrealized gains noted above are “paper gains” and would only be realized if securities were sold prior to maturity.

The inverse relationship between interest rates and value has led to an unrealized gain in FY Q2 2026 of \$34 million (as compared with original cost) and an unrealized gain of \$15 million (as compared with amortized cost) as of December 31, 2025, respectively, as shown in the table above. As interest rates are projected to decline in 2026, this may lead to additional unrealized gains.

Earned Interest Yield

The earned interest yield of the total investment portfolio for the quarter ended December 31, 2025, was 4.018%, 0.007% lower than the previous quarter and 0.607% higher than a year ago.

Cash Management Projection

Based on the Finance Department’s pooled cash flow projection as of December 31, 2025, total revenues, investment maturities and cash for the next six months are anticipated to be approximately \$2.5 billion. This is sufficient to cover projected expenditures of approximately \$2.2 billion.

Statement of Compliance with the Policy

There were no exceptions or violations outstanding for the quarter ended December 31, 2025. The investment portfolio meets the requirements of the City’s Investment Policy and California Government Code Section 53601.

Comparison of Portfolio Investment Earnings to FY 2025-26 Budget

The following is a comparison of actual General Fund investment earnings, on an accrual basis, to the Fiscal Year 2025-26 budget. The Fiscal Year 2025-26 Budget included \$16 million for interest earnings for the General Fund, based on an assumed net interest yield of 3.90%. The schedule below compares the unaudited actual net investment earnings to the General Fund budget for the quarter ended December 31, 2025. The actual interest earning rates are greater than the forecast for the quarter and for the fiscal year.

INVESTMENT TRADING ACTIVITY

Section E provides details of the City’s investment activities, including purchases, maturities, amortization, interest received, and realized gains or losses from trading activities.

In general, the City holds all securities to maturity. On rare occasions, the City may liquidate holdings to raise cash or as allowed under the Investment Policy.

INVESTMENT STRATEGY AND MARKET UPDATE

The Investment Program continues to focus on its core mandates of safety, liquidity, and yield. Staff continues its effort to match known cash flow outlays in the next 24-month horizon with investment maturities. Beyond the 24-month horizon, staff selectively invests in various assets classes and maturity buckets to diversify the portfolio structure and maximize the portfolio's earnings potential, as allowed by the Investment Policy.

The Federal Government was shut down for much of the Quarter ended December 31, 2025, and thus, there were few official economic indicators reported. However, private indications and anecdotal evidence seemed to indicate the economy continued its slowing trajectory. Additionally, there were significant private corporation layoff activity in October and November, and signs of late-economic cycle credit conditions. Political interference in the independent Federal Reserve continues to pose a risk to economic and market conditions. Staff will continue to position the City's treasury portfolio to ensure smooth performance and sufficient liquidity.

Investment staff will closely monitor market developments, continue to focus on the overall quality of the portfolio and invest with care, prudence, and diligence.

Future Commitments – As of December 31, 2025, the City had no obligations to sell securities and no commitments to participate in securities trading.

Executed Reverse Repurchase Agreements – No reverse repurchase agreements were executed this quarter.

Restructuring – No restructuring activities took place during this quarter.

CONCLUSION

The total investment portfolio as of December 31, 2025, was \$2,493,932,545, a decrease of approximately \$111 million from the previous quarter. For the quarter ended December 31, 2025, the earned interest yield decreased from 4.025% to 4.018% as compared to the quarter ended September 30, 2025, and the weighted average days to maturity increased from 669 days to 713 days over the same period. As of December 31, 2025, approximately 46% of the total portfolio was invested in U.S. Treasuries and Agency securities.
